Euler Declares Gardiner in Error On Advertising

Canadian Dairy Products Adequately Publicized in Britain

Ministers Bridge Gap

OTTAWA (CP)—Published reports of a suggestion made by Hon. J. G. Gardiner, Minister of Agriculture, before a cheese-makers' convention here last week that Canadian dairy products suffered from insufficient advertising in the United Kingdom market, brought a retort from Hon. W. D. Euler, Minister of Trade, today. Mr. Euler's department is responsible for the Dominion's advertising in Britain.

"If he was correctly reported," said Mr. Euler, "he simply does not know what he is talking about and I avail myself of the opportunity of saying so."

"Why, we do more advertising of Canadian products abroad than any other two dominions. Mr. Gardiner had better see to the supply and the quality. We will attend to the advertising."

It is understood that after Mr. Euler had given the interview, the two ministers discussed the situation and were agreed that the agriculture minister had intended no reflection on his colleague's department in the speech he made.

French Officer Shot for Treason

Naval Man Dies Before Firing Squad For Selling Information

TOULON, France (AP)—For having sold naval secrets to a foreign power, a 25-year-old French naval officer died at dawn today before a firing squad composed of volunteers from the fleet.

Ensign Marc Aubert, who had lived in terror during the weeks since he confessed his treason and was sentenced, died with his head high. His last words were: "I know how to die like a sailor."

The death volley crashed out exactly at 6 a.m. before the redoubts of Fort Malbosquet.

Aubert confessed he had sold information about French fleet movements and naval construction data to a foreign power, which was not identified publicly. He used his sweetheart, Marie Morel, as a blind for the correspondence in which he transmitted the secrets.

Under a three-year sentence as an accomplice, the ensign's sweetheart spent last night in the women's prison, unaware he was to die at dawn.

Splasher Fined

RICHMOND, Ind. (AP)—Aquatic sports on a downtown street proved costly in court today for Marshall Taylor, 37. Deputy Prosecutor Floyd Gardner said Taylor had been driving near a sidewalk, splashing slush on pedestrians to see them jump. Taylor was fined \$1 for driving without a license and \$5 for speeding.

THE WEATHER

VICTORIA, 6 a.m. today—A moderate depression is centered northwest of Queen Charlotte Islands. The weather has been unsettled and comparatively mild throughout British Columbia with showers on the coast and light snowfalls over the interior of this province. It is quite cold on the prairie.

Germany Giving I.O.U.'s for Arms As Burden Grows

New Acknowledgment Vouchers Carry No Set Interest Rate

Jews Put to Work

BERLIN (CP-Havas)—The German government is now paying its industrialists for armaments with "acknowledgment vouchers," or I.O.U.'s, bearing no definite interest, it has been learned. The vouchers will be redeemed by stages according to the capabilities of the treasury or in accordance with decisions the Reichsbank may take.

The new system of payments—disclosure of which at the week-end threw new light on the burden the Reich's vast rearmament and building program is imposing on the government's finances—was inaugurated by Economics Minister Walther Funk.

Until last January the government financed armaments orders with treasury notes bearing fixed interest and redeemable at short notice.

TO EMPLOY JEWS
BERLIN (AP)—A shortage of workers in Germany has brought about a new Nazi order that recommends the employment of Jews in public and private businesses and reverses a long line of earlier decrees curtailing the business, professional and public life of Jews.

Dr. Friedrich Syrup, president of the unemployment insurance board and a member of the labor department, issued the order "with the special approval of (Field Marshal) Herman Wilhelm Goering as chief executive of the four-year (economic) plan."

"The state is not interested in letting the working capacity of able-bodied unemployed Jews lie idle and leave them to be supported by charity," the statement read.

"It is therefore recommended to give such Jews employment, thereby freeing German citizens (Aryans) for undertaking urgent work for the state."

Benny Trial April 3

NEW YORK (AP)—Trial of Jack Benny, radio comedian, on charges of smuggling two gold clips and a gold bracelet into the country was postponed today in federal court until April 3.

U.S. Plane Bill Voted

WASHINGTON (AP)—The United States Senate approved today an administration-sponsored proposal to increase the army air corps' authorized strength to 6,000 planes.

Winter Golf Opens

Ernie Brachat Early Leader in Men's Qualifying Round With Net 65

Posting a gross score of 74, which his handicap reduced to a net 65, Ernie Brachat, member of the Gorge Vale Club, was leading at 1.30 in the 18-hole qualifying round of the men's handicap of the 11th annual Empress winter golf tournament, which opened at the Victoria Golf Club.

With bright sunshine and no wind, weather conditions were ideal for the tournament. The sports course was in excellent condition and with a total entry of 178, 112 men and 66 women, everything points to a fine tournament. The field included 75 out-of-town players, one of the largest lists of visitors since the event was introduced.

Brachat had a three-stroke lead on the field. In second place with 68 were G. S. Ripley, Seattle, Alan Riches and Matt Mather, Castor, Alta.

The low 32 net scores qualify for the championship flight. This afternoon the women's qualifying test was being played with 32 to qualify.

BELGIAN EFFORTS TO FORM CABINET FAIL

Parliament Dissolved And Polling Set For April 2

BRUSSELS (AP)—King Leopold today signed a decree dissolving Parliament and setting April 2 as the date for a general election, after efforts to form a cabinet had failed.

HUBERT PIERLOT

A recommendation of the council of ministers said dissolution was the only way to break a deadlock.

Belgium has been without a cabinet since the resignation of that of Hubert Pierlot, February 27, when Socialist members declined to collaborate because of Pierlot's attempt to balance the budget by slashing salaries and pensions.

INQUIRY INTO ALL DEFENCE ORDERS

OTTAWA (CP)—All contracts entered into by the Department of National Defence and tabled in the House of Commons will come under the review of the public accounts committee. The House this afternoon adopted a motion of Hon. Ian Mackenzie, Minister of Defence, to this effect without debate.

By two previous motions sponsored by C. Grant MacNeill, C.C.F., Vancouver North, and adopted after debate, the Bren gun contract with the John Inglis Co. Limited and a shell contract with the Montreal Equipment and Supply Limited were referred to the committee.

Under an order passed last session all defence department contracts involving sums of \$5,000 or more have been tabled in the House and all these will go to the committee.

Alberta Oil Fields Watched By Admiralty

House Told British Navy Studying Development of Supply Oil Not Yet Right

By J. F. SANDERSON
Canadian Press Staff Writer

LONDON—The Admiralty is watching the development of the Alberta oil fields, Lieut. Col. J. J. Llewellyn, Civil Lord of the Admiralty, told the House of Commons today.

Replying to a question from Sir Percy Hurd, Conservative, Lieut. Col. Llewellyn said: "The Admiralty naturally is very interested in the development of these Empire oil fields, and should oil fuel to the Admiralty's specifications be produced and made accessible to tanker transport, they would certainly be willing to enter into negotiations with a view to purchasing supplies."

Answering another question from Sir Percy, Mr. Llewellyn said the specifications at present "do not comply with our requirements."

Sir Henry Page-Croft, Conservative, asked the minister if the oil proved to be of the right standard and quality to "make urgent inquiries before this oil field should fall into the hands of anyone connected with a country which may be a potential enemy."

House Told British Navy Studying Development of Supply Oil Not Yet Right

Seek Limitless Source of Power

Hunt for Secret Of Releasing Energy From Uranium Narrows

By RENNIE TAYLOR
Associated Press Staff Writer

BERKELEY, Calif. — Recent advances in atom-smashing have started scientists on a new and apparently narrowing hunt for the secret by which, they say, a few pounds of uranium may be made to run all the light, heat and power plants on earth.

The trail leads through a labyrinth of ifs, but it is becoming hotter.

Dr. Louis Alvarez, one of the young scientists working with the University of California cyclotron, a powerful atom-smashing device, said today he and his associates were taking up the quest anew by digging into the implications of a startling discovery attributed a few days ago to Dr. G. Hahn of Berlin.

Dr. Hahn was reported to have found an energy of 200,000 volts in an exploding atom of uranium.

The Hahn process was tried out with the cyclotron and similar results were obtained.

That step, Dr. Alvarez reported, opened up the possibility of developing some means of causing a 200,000-volt discharge to perpetuate itself and increase prodigiously by setting in motion a continuous and rapidly multiplying series of other explosions.

In breaking down the uranium atom a neutron was shot into it.

WIFE BACK IN JAIL

Gandhi ordered his wife back to prison yesterday although he was weakening. His move was a new act of defiance against Thakore Sahab, who had freed Mrs. Gandhi from jail but still refused Gandhi's other demands.

The reunion between the leader and his wife was a dramatic one. Then he gave his verdict that she should rejoin others still imprisoned for participation in this civil disobedience campaign.

MEMBER TO FLY BACK TO OTTAWA

R. W. Mayhew, M.P., who was the first passenger on the Trans-Canada Airline—cross-continent service, will fly back to Ottawa over the same route tonight.

Mr. Mayhew left here last night by boat for Vancouver and will take the regular night plane from there tonight. He will be in Ottawa by noon tomorrow.

The member came out to Victoria to take part in the inaugural ceremonies of the new air mail service which gives this city a direct hook-up with the transcontinental line.

He is returning to resume his parliamentary duties.

Italians Shoot Spy

ROME (AP)—Antonio Scarpa, Italian naval employee, was put to death at dawn today in the courtyard of Port Bravetta, near Rome, for military espionage.

Scarpa, a former Austrian officer of Trieste, was shot in the back after having been degraded. He was convicted by a special court for the defence of the state, but details of the charges were withheld.

VICEROY MAY MOVE TO SAVE GANDHI

Intervention Asked As Indian Leader Weakens On Hunger Strike

RAJKOT, India (AP)—Possibility of intervention by the Viceroy in Mohandas K. Gandhi's dispute with the native ruler of Rajkot was strengthened today as Gandhi grew weaker on the fourth day of his "fast unto death."

The Viceroy, the Marquess of Linlithgow, broke a tour of the Rajputana states and hurried back to New Delhi after appeals from Gandhi's Nationalist followers and Nationalist-controlled provincial governments for pressure on behalf of administrative reforms in Rajkot.

MARQUESS OF LINLITHGOW

Scores of protests from the adamant attitude of Thakore Sahab Shri Dharmendrasinhji, the native ruler of the little state, were telegraphed to Lord Linlithgow while a thousand peasants prayed outside the quarters where Gandhi was fasting.

It was Gandhi's sixth hunger strike and his physicians said "this time the fast will not last many days."

Gandhi, 69, and frail, lay on a cot on the veranda of a native dwelling, screened from the broiling sun and the eyes of those who gathered nearby to pray. He wore only a loin cloth.

Already he had lost two pounds, his legs were swollen, his pulse had quickened and his blood pressure had risen from 168 to 180—but he still joked with his intimates.

The 29-year-old Thakore Sahab, whom Gandhi calls "my son," showed no signs of giving in to the Nationalist leader's demands that the people of Rajkot be given a greater voice in the government.

2 FACE CHARGE OF ABDUCTION

MONTREAL (CP)—John Drummond Code and his wife were remanded until tomorrow when they appeared in court today on a charge of abducting the woman's two sons by her first marriage to Dr. Henry Ward Williams of Rochester, N.Y., whose petition to gain custody of the boys is before the courts.

The couple were arraigned shortly after the woman was returned with the two boys, Henry and James, reputed to be worth a fortune, from Windsor, Ont., where the mother was taken into custody yesterday on a warrant charging her with abduction.

Scrap Iron Ban at Portland

PORTLAND, Ore. (AP)—Longshoremen, apparently taking a cue from ceremoniously polite Chinese pickets, not only refused today to load scrap iron for Japan in a Greek freighter, but also extended their waterfront ethics to embrace a British grain carrier.

Forty-four dock workers halted in defiance to 500 apologetic but determined Orientals lined up at Terminal No. 4 to protest a cargo of United States junk metal destined to Japan.

An eight-man gang passed through the line to load grain in the British motorship Ardanorm. Although the wheat was consigned to the United Kingdom, the longshoremen decided the picket line included the entire terminal. The men turned back, politely edging their way among the peaceful Chinese throng.

Longshoremen, however, did not pause in loading grain from freight cars into a nearby elevator.

The Chinese established their pickets on the pier where the Ann Stathatou docked Saturday. When police asked them to withdraw from private property, they extended their line along the road and entrance to the dock, thus placing the entire terminal behind the pickets.

Way Opened For Peace in Spain

But New Madrid Council Tells Franco Loyalist Leaders Must Depart Safely

PARIS (AP)—Diplomatic reports from Madrid said today General Segismundo Casado, head of a new defence council in Republican Spain, had offered to sue for peace with the Spanish Nationalists provided Republican leaders were guaranteed safe conduct out of Spain and no Italian troops were permitted to enter Madrid.

These reports said 500 republicans who feared reprisals by General Franco already had fled the republican-held area by sea and air.

Diego Martinez Barrio, president of the Spanish parliament, earlier had declared here that the seizure of power in republican Spain "must lead to peace."

ASK FOR VISAS

Spanish republican officials were said to have asked French and British authorities to issue hundreds of visas for leaders supporting the Madrid regime.

These presumably would be removed from Spain as were republican officials of Minorca, who left aboard a British warship when that Balearic Island surrendered to the Nationalists last month.

This was the conclusion of a manifesto Gen. Casado broadcast to "Spaniards in the trenches" on both sides of the civil war front: "Our fate is decided. It depends on us to get out of this impasse by our own will. Spaniards! Choose between fruitful liberty and lawless slavery, between peace for Spain's profit or war in the service of imperialistic folly."

(In London, British officials said they had not been requested to remove republican leaders from Spain but pointed out a British fleet at Gibraltar was available and that "both sides know we are willing to co-operate in any way to end the war.")

SUPPORTS COUNCIL

Martinez Barrio said he was fully in accord with the six-man council which deposed Premier Juan Negrin.

He declared General Jose Miaja was "the man who can come to an understanding" with Spanish Nationalist General Franco "to bring peace back to Spain."

Informed quarters here expressed belief the way for republican Spain's surrender to the Nationalists had been paved by the formal resignation of the ousted Negrin government.

Martinez Barrio, as president of the Cortes (parliament), was first in line to succeed President Manuel Azaña, who resigned February 28. A Madrid communique said last Wednesday Martinez Barrio, who has been in Paris for some time, had assumed the post but he declared he would not accept it.

BRITAIN TO LOAN CHINA \$23,500,000

Reported Chamberlain Has Decided to Extend Aid to Country

LONDON (AP)—Prime Minister Chamberlain was reported today to have decided to extend China a \$5,000,000 (\$23,500,000) loan.

It was believed the Prime Minister would introduce legislation within the next two weeks to expedite the loan, which was said to have been decided on in consultations with the United States.

(The United States December 15 made a credit of \$25,000,000 available to China.)

British officials for some time have been considering lending China between \$3,000,000 to \$5,000,000 to bolster Chinese currency. Mr. Chamberlain also has the power to grant China export credits up to \$10,000,000.

2 FACE CHARGE OF ABDUCTION

MONTREAL (CP)—John Drummond Code and his wife were remanded until tomorrow when they appeared in court today on a charge of abducting the woman's two sons by her first marriage to Dr. Henry Ward Williams of Rochester, N.Y., whose petition to gain custody of the boys is before the courts.

The couple were arraigned shortly after the woman was returned with the two boys, Henry and James, reputed to be worth a fortune, from Windsor, Ont., where the mother was taken into custody yesterday on a warrant charging her with abduction.

Japan, Looking to Russia, Boosts Army

TOKYO (AP)—The budget committee of the lower house of Parliament was informed Monday that the government is considering "the new situation" of Soviet Russia in planning military costs for the next fiscal year. The committee opened study of military outlays expected to total \$2,000,000,000.

Navy Minister Mitsumasa Yonai told the legislators the naval program is aimed at making the Japanese navy supreme in the western Pacific. He added: "Of course, the Vinson (United States) naval expansion plan and the British expansion plan are being taken into consideration. It is hoped that friction arising over development of the new order in East Asia may be ironed out through diplomatic channels."

"In the event third powers vigorously expand their naval armament despite Japan's diplomatic efforts, Japan will be forced to take countermeasures."

Assizes Open at Vancouver With 16 Cases Listed

2 Charges of Murder and 6 of Manslaughter Will Be Heard

Chief Justice Sits

VANCOUVER (CP)—The Vancouver spring assizes opened today with Chief Justice Aulay Morrison on the bench to hear 16 cases, including two murder and six manslaughter charges.

First trial of the session is that of Eldon L. Munroe, 42-year-old sawmill superintendent, charged with arson and with counseling an offence in connection with a fire that partly destroyed the False Creek Lumber Company's plant here on May 13, 1938.

William Munroe, nephew of the defendant, pleaded guilty in police court to a charge of setting the fire and was sentenced by Magistrate Mackenzie Matheson to one year in Oakalla prison.

Victor Beynon will appear before the court on a murder charge resulting from the death of Kenneth Clay Brown at Egmont, B.C., several months ago, while George Wallace, Indian, of Sardin, B.C., is charged with the death of Mrs. Marie Sam, found beaten last December 1 in a cabin here.

The Victoria spring assizes will open next Monday, March 13.

CONVICTIONS OF SWINDLERS UPHELD

McKay and Graham of Reno Circle Must Serve Prison Terms

NEW YORK (AP)—The United States Circuit Court of Appeals today affirmed the conviction of William J. Graham and James C. McKay, Reno gamblers and confidence men, who were sentenced to serve nine years each in federal prison and fined \$11,000 on February 17, 1938, after they had been found guilty of mail fraud and conspiracy.

The circuit court also affirmed the convictions of Boies Heed and Allen Comer, members of the swindling ring operated by Graham and McKay, who were sentenced to serve three years each and fined \$800 and \$800, respectively.

A number of Canadians in British Columbia and the prairie provinces were victims of the ring.

The opinion of the two-judge court was written by Judge Harrie Chase, with Judge Learned Hand concurring. A notation in the opinion stated that "the decision was made without Judge Martin Manton concurring. Judge Manton sat in at the argument, but resigned before the decision was affirmed."

The conviction of the gamblers, charged with defrauding 38 victims in Reno out of \$750,000 in a race track swindle scheme, came after two federal court juries had disagreed. The third trial began before former Supreme Court Justice Willis Van Devanter January 24, 1938.

Negrin Takes Refuge in France

Loyalist Premier Deposed By Council At Madrid, Flies

TOULOUSE, France (AP)—Juan Negrin and Julio Alvarez del Vayo, premier and foreign minister in the deposed Spanish republican cabinet, arrived here today by airplane.

They were accompanied by their secretaries.

(Paris dispatches earlier had said Negrin and his ministers were reported under arrest somewhere in Spain after the overthrow of the cabinet by a six-man national defence council headed by General Segismundo Casado.)

Aviation officials said another plane carrying other members of Negrin's ministry was expected during the night.

FRANCOISTS MOVE

BURGOS, Spain (CP-Havas)—General Franco's high command today was reported intensifying plans for resumption of hostilities after a final appeal for unconditional surrender.

Insurgent spokesmen declared a military victory would be more satisfactory than a negotiated peace as it would remove the necessity of negotiation with republican leaders.

An appeal for surrender was broadcast last night.

A "generous amnesty" was offered to all those who have committed no crime.

See other story on page 2.

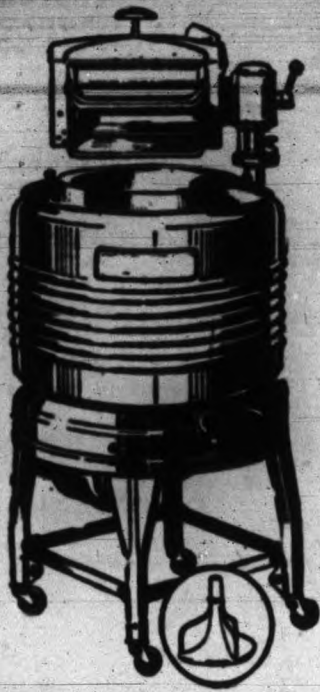

Scrap Iron Ban at Portland

PORTLAND, Ore. (AP)—Longshoremen, apparently taking a cue from ceremoniously polite Chinese pickets, not only refused today to load scrap iron for Japan in a Greek freighter, but also extended their waterfront ethics to embrace a British grain carrier.

Forty-four dock workers halted in defiance to 500 apologetic but determined Orientals lined up at Terminal No. 4 to protest a cargo of United States junk metal destined to Japan.

An eight-man gang passed through the line to load grain in the British motorship Ardanorm. Although the wheat was consigned to the United Kingdom, the longshoremen decided the picket line included the entire terminal. The men turned back, politely edging their way among the peaceful Chinese throng.

Longshoremen, however, did not pause in loading grain from freight cars into a nearby elevator.

DROP BLOOD FROM PLANES IN CANS

Russian Devise System
For Transfusions in
Remote Areas

MOSCOW (AP)—Canned human blood, dropped from the sky by parachute, today is saving lives in Russia.

Experience has shown preserved blood, sealed in special containers, can be rushed to an isolated district by airplane in less time than it would take to find a suitable donor for a transfusion operation.

There are 70 blood transfusion centres in 840 auxiliary stations equipped to supply blood for transfusion.

According to Soviet statistics, a record of 100,000 transfusions of preserved blood in this country has demonstrated "canned" blood is just as effective in restoring a patient's strength as blood fresh from the veins of a live donor.

Under methods employed here, blood retains its efficacy for 15 days.

Goat's blood, in small doses, has been successfully employed in many cases of stomach ulcer.

Thieves Take Heavy Loot
VANCOUVER (CP)—Thieves who were active in Vancouver at the weekend had to work hard for some of their loot, which included a heavy pool table, 2,000 pounds of old newspapers and 3,000 feet of used lumber.

Japanese Advance Near Yangtze

SHANGHAI (AP)—Three motorized Japanese columns established advance lines on the Han River Monday, easing the way for infantry driving toward Shashi and Ichang, two important Yangtze River cities.

The Japanese, helped by bombers, left a trail of ruined villages in central Hupeh province and reached a point about 125 miles west of Hankow.

Heavy rainfall hampered the operations. The Japanese said their troops battled in knee-deep mud and horses were bogged down to their flanks. An estimated 2,000 Chinese bodies were said by Japanese to have been found in the mud at Anlu, 115 air miles northwest of Hankow.

Gandhi's Course Declared Unwise

LONDON (AP)—The British government, according to a statement in the House of Commons today, considers Mohandas K. Gandhi was unjustified in starting his fast to force constitutional reforms on the ruler of Rajkot, India.

Lieut. Colonel A. J. Muirhead, under-secretary for India, told the house that Thakore Sahab Shri Dharmendras Injhu, ruler of Rajkot, had denied he had broken any undertakings given Gandhi over appointment of a committee to consider reforms.

Furthermore, Mr. Muirhead said, a British agent on the spot "did not consider that a case to the contrary had been made out."

Automobile Workers' Faction in Convention

DETROIT (AP)—The United Automobile Workers' faction, led by President Homer Martin, now in convention here, adopted an amendment to its constitution today to forbid the election of officers who are affiliated with the Communist Party or Nazi or Fascist organizations.

Martin has accused his opponents on the U.A.W. executive board, supported by the Congress of Industrial Organizations, of being "under the influence of Communists."

The convention, called by Martin, elected U.A.W. president, in defiance of a majority of the unions elected executive board which is supported by the C.I.O., is in its third day. The opposing group's convention is set for March 27 in Cleveland.

4 Students Leap As Fire Sweeps House

MINNEAPOLIS (AP)—Four University of Minnesota students were injured, three seriously, when windows as fire swept through the Delta Upsilon fraternity house early today.

Eleven other students escaped uninjured. Rushed to the university hospital were: Lloyd Briggs, 25; Appleton, Minn.; Don Victor, 24; Ackley, Iowa; Benson Redding, 21; Bingham Lake, Minn.; and Ward Gressline, Ackley, Iowa. All suffered fractures.

The flames were discovered shortly after 4 p.m. Girls from the Gamma Phi Beta sorority, next door, cared for the injured until firemen and doctors arrived.

New Name For Goos

OMAHA, Neb. (AP)—Frank A. Goos filed a petition in district court here asserting his name is "embarrassing" to him and asked that it be changed to Goos. His attorney is Margaret E. Goos.

4 INJURED ON CARIBOO ROAD

ASHCROFT, B.C. (CP)—Four persons were in the hospital here today with injuries suffered yesterday in a traffic accident on the Cariboo Highway near 85-Mile House.

Most seriously injured are Beatrice Dogherthy of Maiden Creek Ranch, who suffered chest injuries, and Theodore Tufts of Clinton, B.C., suffering from concussion.

Olive Dogherthy of Maiden Creek Ranch suffered bruises and cuts and Alfred Smith, Clinton, head injuries.

Police said the four were returning from a dance at Forest Grove, about 100 miles north of Ashcroft, when their automobile collided with a heavy truck driven by George Brookes of Prince George.

Robbers Miss \$100

VANCOUVER (CP)—Burglars who entered the Co-operative Commonwealth Federation provincial headquarters here at the weekend obtained a small number of postage stamps, but overlooked about \$100 in cash. The money was hidden in a filing cabinet drawer.

Students Ask More Aid

OTTAWA (CP)—Scholarship provisions in Canada are "dangerously low" compared with those made by other countries, a Canadian Student Assembly delegation asserted today as it urged a state scholarship plan on the Dominion government.

The scheme proposed to Hon. Norman Rogers calls for federal grants-in-aid to the provinces specially to be spent on scholarships awarded by provincial selection committees representative of all higher educational institutions in each province.

After hearing the assembly's submission, the Minister of Labor, according to a statement issued by his office, "did not encourage the hope that the proposal for national scholarships could be accepted at present, but did undertake to examine the possibility of extending aid to students on the basis of merit."

The convention, called by Martin, elected U.A.W. president, in defiance of a majority of the unions elected executive board which is supported by the C.I.O., is in its third day. The opposing group's convention is set for March 27 in Cleveland.

Confidence in Negrin Lost

New Council at
Madrid Says Cabinet
Was Unfit to Rule

PARIS (AP)—A broadcast from Madrid said Premier Juan Negrin had accepted his cabinet's overthrow yesterday by a six-man defence council, thus legalizing the bloodless coup by which power was seized in Madrid.

Negrin arrived at Toulouse, France, by plane today.

Dispatches said that General Segismundo Casado, military governor of Madrid, whose group seized control in a swift move, early today telephoned General Jose Miaja, republican commander of air, land and sea forces in central Spain—the one-fourth of continental Spain not yet conquered by Nationalist General Franco.

The revolt against Negrin began Saturday at Cartagena, the republican naval base, when a group of officers and soldiers attempted to capture the city.

A manifesto issued immediately after the Defence Council had taken control at Madrid scathingly referred to the Negrin cabinet as a "handful of men in whom no one had confidence any longer," and declared Negrin had proved his inability to rule.

It indicated that members of the government had been using their position to cloak their preparations for flight.

Advices to the French government, today said a Spanish republican fleet composed of four large warships and several smaller vessels had been sighted off the coast of Algeria, apparently to be interned preparatory to being handed over to the Spanish Nationalist government.

Death Sentence

LONDON (AP)—Arthur James Mahoney, 26, slayer of Georgina Hoffman, was sentenced today to be hanged.

Mahoney, an Irish ship's steward, was arrested February 13, one day after Miss Hoffman was found stabbed to death in her Mayfair apartment. Sentence was passed by Mr. Justice Munphy at the central criminal court.

Mahoney confessed to police he had killed Miss Hoffman, who was 26, "because she tricked me out of all my money."

"Now or Never" Attack Launched Against CBC

Brockington Faces Big Lobbies Opposed
To Government Broadcasting in Canada

By NORMAN MacLEOD
OTTAWA—Parliament Hill, which likes to dramatize men no less than events, calls him the "Czar" of radio. But "Watchdog" would be a better term.

It is not only in his uncompromising attitude towards politicians and impudent vested interests that L. W. Brockington, K.C., CBC chairman, invites the watchdog simile. His very appearance suggests it. His massive head, with ugly thatch of reddish hair, eyes that gaze out patiently but alertly, and manner of speaking in a deep rumble which is at once commanding and menacing, all convey the impression of a great, powerful St. Bernard dog, sitting before the portal of a well-revered trust.

ASSAULT UNDER WAY

However, a major attack is being launched against the CBC. The advance guard of the attackers is already entrenched on Parliament Hill, the first signs of one of the bigger and better lobbies in the capital's history are already sprouting, and a whole reserve of the most eminent and highest priced legal talent in the country is under restraint to make its pressure felt at the psychological time.

Not only is it "now or never" for the commercial radio interests. By staging their drive this year they can count upon the advantage of the controversy stirred up by C. George McCullagh. This prospect of being able to "cash in" strategically on the McCullagh attack upon a publicly owned radio undoubtedly explains not only much of the aggressiveness but also considerable of the optimism which the private ownership forces of radio are manifesting.

TWO-FOLD ATTACK

No one who knows the forces arrayed against the radio commission in the present situation on Parliament Hill under estimates the battle that the commission has on its hands. It must not only meet the frontal attack of the private radio interests, prepared to stage a formidable drive intensified by a vigorous parliamentary lobby. They will also have to meet the attack from the rear of the McCullagh forces who, while attacking the publicly-owned administration, offer the argument that they are trying to preserve the radio for Canadian democracy.

Of the two attacks, that of the private ownership forces is probably the least dangerous. The McCullagh attack, however, is different. There will be many politicians anxious to climb on the McCullagh bandwagon, in the hope of assuring themselves the support of the publisher of the powerful "Toronto" millionaire press. Mr. McCullagh, consequently, can count upon having many champions in the radio committee.

At the present stage of events it is possible to prophesy that the coming battle will be fierce. It can also be prophesied that Chairman Brockington will hold his own. For he is a bonnie fighter. Already he has demonstrated he understands the fundamental military principle that the best means of defence is attack. In proposing legislation which will prevent profiteering on the part of the remnant of Canadian broadcasting still left in private hands, Mr. Brockington scored an initial tactical advantage. He

confronted the enemy with the unexpected—an attack where they were looking only for a stout born defence. Already he has divided their energies between this unexpected task of having to defend themselves and the other task upon which their plans had all been concentrated of attacking the Broadcasting Corporation.

'Holiday' Plan in U.S. Coal Industry

Move to Reduce
Production Started By
Anthracite Producers

HARRISBURG, Pa. (AP)—One branch of the coal industry in the United States geared its production today to a three-day week while another was considering similar action as a possible cure for its economic ills.

Anthracite operations in Pennsylvania's eastern counties put into effect a "holiday" plan to curb—for a month at least—their output in a move that Republican Governor Arthur James called necessary to "stabilize the market" for hard coal.

Soft coal producers meantime received a suggestion from a prominent West Virginia executive to take steps in a like direction—adoption of a four-day work week.

In a five-point program for the bituminous industry submitted to the committee for amendment of the Coal Act in Washington at the weekend, E. C. Minter, president of the Minter Fuel Company of Beckley, W. Va., expressed the belief the shorter week would "balance production and demand."

Death Takes Former U.S. Attorney-General

LUDLOW, Vt. (AP)—Funeral services will be held here Wednesday for the late John Garibaldi Sargent.

The former cabinet officer, who was born 78 years ago at Plymouth Notch, about two miles from the Coolidge farm, died of heart disease at his home here early Sunday morning.

After serving as Attorney-General in President Calvin Coolidge's cabinet from 1925 to 1929, Mr. Sargent returned to his law practice here and remained active in a consulting capacity until his death.

Execution in Texas

HUNTSVILLE, Tex. (AP)—Winzell Williams, 19, Dallas negro who became a central figure in Governor W. Lee O'Daniel's fight for abolition of capital punishment in Texas, died in the electric chair at 12:10 a.m. today for the murder of an aged Dallas dairyman.

Governor O'Daniel gave Williams a 30-day reprieve—all he could give under the law—a month ago, saying he wanted the negro to suffer the "torment" of waiting for certain death that much longer.

After a storm of criticism, the governor explained he was calling attention to his stand against capital punishment.

'SEA SERPENT' JUST BIG SHARK

WASHINGTON—Cape Cod's sea serpent is nothing but the spinal column of a big shark, Dr. Remington Kellogg, zoologist at the U.S. National Museum here, told Science Service after examining published pictures of the "monster." Its apparent head is just a part of the brain-case.

Shark skeletons are formed of cartilage instead of bone, Dr. Kellogg explained. Therefore when a shark dies and its flesh decays, practically all of the skeleton disappears also. Only the spinal column and part of the skull, made of denser cartilage, hold out a little longer. The joints of the spine also have bony disks on their faces, and these help to keep the structure from disintegrating.

Borrowings Voted.

LONDON (AP)—The House of Commons adopted by a show of hands today a government bill to increase defence borrowing powers—from 1,400,000,000 to 2,000,000,000 (£1,875,000,000 to \$3,750,000,000).

DUBLIN (CP)—Thomas Casement, brother of Sir Robert Casement, put to death for his part in the 1916 Irish Rebellion, was found drowned in the Grand Canal near the Baginbun bridge today.

He had been under the care of a doctor and left his home last night.

ALBERTA HESITATES ON SUDETEN PLAN

CALGARY (CP)—"At no time have I agreed, nor has the government of Alberta undertaken to accept, 1,500 to 2,000 Sudeten Germans to settle in the Peace River district," said Premier Ahebert in an address at the Prophetic Bible Institute here last night.

Before the provincial government could undertake to accept Sudeten Germans, Mr. Ahebert declared, it would require a guarantee from the British or Dominion Government "that these people would not become a charge of the province for the next 10 or 15 years."

He continued: "If our own farmers are finding difficulty with the present prices of farm products as they are, and with the federal government declaring it will no longer peg the price of wheat, how can we hope that 1,500 inexperienced farmers from Middle Europe will be better able to provide for themselves?"

"In my opinion Alberta can not undertake at the present time to look after any of Europe's unfortunate victims of the present Fascist and Nazi regimes."

Deportation Ruling Delayed

WASHINGTON (AP)—The United States Supreme Court refused today to review an attack by the Carlisle Lumber Company of Onalaska, Wash., on a national labor relations board order requiring reinstatement of 147 discharged employees with \$185,000 back pay.

Without explanation, the tribunal refused to pass on a decision by the ninth federal circuit court upholding the order.

No opinions were delivered by the court. This postponed at least until next Monday a final decision on the right of the government to deport an alleged Communist. Joseph G. Strecker of Hot Springs, Ark., is involved.

Lawyer Suspended

VANCOUVER (CP)—G. R. Annable, Vancouver barrister, was suspended from practice for six months Saturday by the Law Society of British Columbia.

UNITED STATES OF EUROPE FORESEEN

Dr. Benes, Now At
Chicago, Says Arms
Limits Not Far Off

CHICAGO (AP)—Dr. Eduard Benes, former president of Czechoslovakia, asserted Sunday a United States of Europe was the inevitable solution of rivalries and tensions among European nations.

Predicting Europe shortly would reach the economic limit of armament costs, Dr. Benes, now teaching at the University of Chicago, gave it as his opinion Europe then would "face a really critical period."

"If peaceful settlement of problems producing tension are not then attained," he said, "there will be either war or bankruptcy and collapse followed by revolution."

Dr. Benes voiced his opinion in a radio round table broadcast.

Col. E. M. Watson To Be Roosevelt Secretary

WASHINGTON (AP)—The White House announced today that Colonel Edwin M. Watson, President Roosevelt's military aide, would be appointed a presidential secretary to succeed James Roosevelt about April 1.

Colonel Watson, a soldier of 33 years' service, will be promoted from colonel to brigadier-general, effective March 31, and will retire on his own application, one or two days later with the higher rank.

A popular aide at the White House since the start of the Roosevelt administration, Col. Watson will be a brigadier-general for only about 24 hours.

TINY SPARKS GROW INTO TOWER OF FLAME—An oil well being drilled near Vacherie, La., blew in "wild." A valve broke, flying splinters of steel struck sparks, and the uncontrolled gusher became this raging inferno of 200-foot flames. Visible 20 miles, they threatened destruction to the village.

Aberhart Likes Herridge Plans

No Definite Arrangements Yet for Social Creditors to Join

CALGARY—Premier William Aberhart of Alberta yesterday said he had received "encouragement and inspiration" from Hon. W. D. Herridge's recent Ottawa address regarding the "New Democracy Movement" and added that no arrangements had been made for Social Creditors to "join up with Mr. Herridge in his New Democracy program."

Mr. Aberhart told an audience at the Calgary Prophetic Bible Institute he was "more than delighted that this movement is starting in Ontario and Quebec."

He added that while Mr. Herridge "has not thus far advocated methods fully approved by Social Creditors, surely that will not prevent all progressive people of whatever stripe or color from getting together in this great movement, the New Democracy."

"Personally I wish him every success," said Mr. Aberhart. "And if he goes on as he has, I shall want to find myself under the banner of the greatest movement that has been started in Canada for a century."

"I am told it has been circulated in the east that we have made definite arrangements to join up with Mr. Herridge in his New Democracy program."

"May I repeat once again that no such arrangements have been made with Mr. Herridge, nor with anyone connected with his movement," said Mr. Aberhart. "I hope I have sufficient intelligence to wait to hear his principles propounded before declaring myself in any way."

Pastor Organizing Leadership League

HAMILTON, Ont. (CP)—The board of governors of the tenary United Church last night granted six months' leave of absence to Captain the Rev. Normanman Rawson, the church minister, so he may assist in organization of the Leadership League, an organization sponsored by the Toronto Globe and Mail seeking co-operation among political parties "for the common good."

EFFECT OF NEW BOMB MINIMIZED

U.S. Experts Solve Secret Of German Aerial Weapon

WASHINGTON (AP)—Military circles heard today that United States army ordnance experts had solved the secret of a German-made aerial bomb which caused frightful destruction in Spanish civil war raids on Barcelona.

The Army and Navy Journal reported it had learned the bomb contained no liquid oxygen—as first believed—but was charged with ammonium nitrate—mixed with powdered charcoal and powdered aluminum, enclosed in a light magnesium alloy shell.

Officials declined comment, but one authority said there was definite reason to believe army and commercial experts here were "fully abreast" of foreign developments.

Senator B. C. Clark, Democrat, Missouri, said he had been informed by an inventor the explosive was so powerful it "would render every plane in the world obsolete."

The Army and Navy Journal, semi-official military service periodical, said subsequent investigation had established the actual composition of the bomb and led to official conclusions that it was overrated as a weapon.

STANDARD FURNITURE IS BETTER FURNITURE

"Lost World" Village Found

U.S. Scientist Tells of Discovery in Unknown South American Gorge

By HOWARD W. BLAKESLEE
 Associated Press Science Editor
 SCHENECTADY, N.Y. — Discovery on the slopes bordering Conan Doyle's lost world of a lost village where perfect happiness exists was announced yesterday at Union College.

The village lies in a huge gorge, nearly half a mile above sea level, but still more than a mile below the flat summit of Mt. Roraima, British Guiana and Venezuela, which was Doyle's famed site of throwbacks to the earth's earlier days. It was located a few weeks ago by Dr. Paul A. Zahl, research associate of the Haskins Laboratory in Union College, who returned last week.

His expedition also found the first authentic lost world "monsters." They are only ants, but they are two inches long, the largest on earth. In the lost world they are called "four-stings," from the belief that four-stings at one time bring death.

Finally, Dr. Zahl reported discovery near Roraima's mist of two waterfalls, each estimated at about 10 times the drop of Niagara.

It was the first and highest of these waterfalls that led to the lost village. The explorer's attention was attracted by a column of mist rising persistently above jungle carpeting a plateau that spreads comparatively flat 50 miles out from Roraima's base.

He traced this mist to the lip of an uncharted gorge that dropped down in the midst of the jungle. Over the edge of the gorge the Uitsih River, in the dry season a stream 200 feet wide, plunged 1,200 to 1,600 feet, the majority of estimates indicating the latter.

He named the place the George VI Falls. While exploring the gorge he came on an Indian village, about three miles below the falls. His guides and the inhabitants told him these people had never before been visited by white men.

IDYLIC LIFE
 The Indians were aboriginal. Yet their life impressed Dr. Zahl as so idyllic that he remained a week. He found "practically perfect" human relations among them.

He said he never noticed a sign of anger, only laughter and general happiness. His photographs, particularly a family group, bear out this spirit.

Dr. Zahl said these Indians were a great contrast to those found near white settlements or mission centres. Indians who had frequent contacts with white

HENRY RISING DIES IN SPOKANE
 Managing Editor of Chronicle Widely Known in Northwest

SPOKANE, Wash. (AP)—Henry Rising, for many years managing editor of the Spokane Chronicle and a pioneer of this city, died here late Sunday afternoon. He had been ill for several weeks.

He was regarded as the dean of all Pacific Northwest editors and had been editor of the Chronicle for 45 years. With the exception of a period of six months he had been with the paper continuously since February, 1893. He became managing editor in December, 1894.

Born in Wyoming, Iowa, Aug. 3, 1893, he graduated from Cornell College at Mt. Vernon, Iowa, in 1915 with a Bachelor of Civil Engineering degree. Soon after leaving college he became interested in newspaper work. After working on papers in the Dakotas for a time he came to Spokane in 1893.

The Chronicle, an afternoon daily with reporters, had just purchased its first typewriter. He was the first to learn to use it. Within a few weeks he was city editor and the following year was managing editor, or editor-in-chief, the title then used on many papers.

On March 1, 1938, he married Miss Catherine Tilsley, daughter of Spokane pioneers. They had one son who died about 20 years ago.

About the time of his marriage, the Chronicle became the property of W. H. Cowles Sr., publisher of the Spokane Spokesman-Review, and for a few months the paper was the organ of a political party under lease. During that period Mr. Rising entered a real estate enterprise with his brother-in-law, the late W. G. (Gus) Roche. Within six months, however, Rising was recalled to the editorship of the Chronicle.

Rising became ill at San Francisco while on a vacation trip last September, suffering from thrombosis which affected the left leg. Against advice of doctors and friends he returned to the paper and remained until the middle of November.

people showed marked development of the weaker traits of the white race, such as jealousy, treachery and anger.

The aboriginals told him of a second falls, another three miles downstream. They said they had never seen these falls because they feared them.

Dr. Zahl soon learned why. As his party approached within a mile, the gorge narrowed, heavy mist drenched the explorers and the roar of the waters rose so that Dr. Zahl said he could believe the expression "too noisy to think."

ADVENTUROUS JOURNEY
 There was adventure almost every hour of the way from the moment Dr. Zahl left the coast bound for Mt. Roraima's foothills in a seaplane piloted by Art Williams. In three hours, the plane covered 250 miles that had taken other expeditions six weeks.

Through low-lying clouds the plane followed the course of the Mazurini river.

Within 50 miles of Roraima increasing frequency of cascades disclosed the last possible stretch on which to set the plane down.

The landing put him and a companion, G. T. Chislett, former member of the Brazilian-British Guiana boundary commission, on a sandbar in mid-river with no immediate means of getting ashore. The plane then flew off to drop a note asking for aid to be sent from a nearby mission.

Night came before aid. In the morning Dr. Zahl awoke with the river rising due to torrential rain and the water lapping at the tent flaps. He and Chislett were preparing to swim when an Indian rescue party appeared in canoes.

The next 50 miles took six weeks of hiking. While feeling his way over a slippery ledge leading to one of the new waterfalls, Dr. Zahl almost stepped on an eight-foot bushmaster. The reptile was coiled, ready to strike. Just beyond it was a sheer drop of about 1,000 feet. Dr. Zahl's only choice was to "freeze" his position, foot in the air. He then slowly with drew without exciting the bushmaster into a lunge.

Capture of the huge ants, dinoponera grandis, was accomplished with something like military tactics. These ants are beasts of prey. They steal the larvae of other insects and carry them back to well-concealed underground nests.

The scientist got 2,000 dinoponera grandis and only one bite. This was a sting on the leg which partially paralyzed the limb for nearly two hours.

Hunger Strike Ends
 TORONTO (CP)—Approximately 150 transient unemployed, housed in the Coliseum at the Toronto exhibition grounds, ended a hunger strike during the week-end.

The strike began Friday in protest against the quality of the meals and ended 24 hours later when practically all the strikers ate supper. The remaining few ate breakfast yesterday.

Urges U.S. Be Asked To Join Trade Talks
 LONDON (CP-Havas)—The Financial News, independent, warned today that the projected Anglo-German trade talks to "divide the world markets between them" might easily prove a waste of time unless the United States were invited to participate.

"The United States is not likely to submit to decisions reached in its absence by an Anglo-German conference," the newspaper pointed out. "The necessity of including the United States, the largest industrial country of all, in any industrial agreement is obvious."

The argument that, once an agreement is reached between Great Britain and Germany, the United States could be invited to participate is most unconvincing. The United States could hardly be expected to sign on the dotted line, and the negotiations would have to be begun all over."

Russian Army Said To Total 1,800,000 Men
 MOSCOW (AP)—Pravda, Communist Party organ, yesterday published German figures giving the peace-time strength of the Soviet Russian army as 1,800,000 men.

The figures were taken from a German military magazine, but the fact that they were published here without comment indicated the Soviet government was not unwilling to have Russian and foreign readers take them seriously.

The same tabulation also showed an increase in Soviet air strength from 6,000 to 9,000 warplanes between 1936 and 1938.

Philippine pythons are able to kill and swallow a good-sized deer without breaking or mutilating the body.

CONFLICT OVER U.S. COURT ENDS

Roosevelt's and Chief Justice Hughes' Congress Speeches Studied

WASHINGTON (AP)—A formal end to the conflict between President Roosevelt and the United States Supreme Court was envisioned by political observers in the ceremonies with which Congress observed its 150th anniversary.

Chief Justice Hughes and then President Roosevelt, each explained to the House of Representatives and Senate Saturday his own conception of the democracy which lie at the base of democracy. When they had finished, many of those in the audience gained the impression their viewpoints on that subject were much the same.

It was the first time the two men had spoken to the same audience since the memorable fight two years ago over the Supreme Court remodeling plan that shattered Democratic ranks in Congress. It was one of the first speeches in which the Chief Justice had dealt with that subject since the President's bill was beaten and a virtual reorganization of the court attained through retirements and death.

Both men agreed the ultimate in authority was the voice of the electorate.

The Chief Justice emphasized all three branches of the government were not masters but servants, exercising their brief authority in the name of the people. He said the clutch of tradition was gone, that those things which in the past were looked up to as self-evident truths now had to be proved, that they could not command respect simply because they were old.

In a similar vein, Mr. Roosevelt said the present modes of communication and transportation left no citizen an excuse for sectionalism, for delay, in the execution of public business, or for failure to maintain a full understanding of the acceleration of the processes of civilization.

5 Rebels Killed In Holy Land Clash

JERUSALEM (AP)—British troops killed five members of an armed band of rebels near Acre, at the Lebanese frontier, yesterday, in a clash which followed the explosion of a land mine under a car filled with Jewish workmen.

One of the workmen was injured seriously and two others were hurt slightly.

Elsewhere in the strife-torn Holy Land, heavy rains flooded the countryside and hampered military police patrols.

35 Killed in Riots in Benares
 BENARES, India (AP)—British troops patrolling the streets of this Hindu holy city fired into the ranks of rioting Moslems and Hindus yesterday. Casualties from week-end disorders were estimated unofficially at 35 dead and 200 injured.

The outbreaks began here and in several other Indian cities Friday when Hindus clashed with Moslems celebrating the sacred Mohurram feast day.

Preaches By Phone in Regina From Toronto
 TORONTO (CP)—Rev. Murdoch MacKinnon, pastor of the Runnymede United Church here, yesterday preached a sermon to the congregation of Knox United Church, Regina, by telephone from Toronto.

Amplifiers in the prairie church carried the four-minute message of Dr. MacKinnon, a former pastor there, throughout the building. It was a message of congratulation to the Regina church, which celebrated its 56th anniversary.

A minister of Knox Church for 15 years, Dr. MacKinnon said 13 years had passed since his former congregation last heard his voice, but that he hoped to be present for the church's 60th anniversary.

The average farm family lives longer and accumulates more wealth than the average city family.

POLAND, ROUMANIA IN ANTI-JEW MOVE

WARSAW (AP)—Joint action by Poland and Roumania to urge the colonial powers to take their large Jewish populations were understood to have been discussed yesterday by the foreign ministers of the two nations.

The foreign ministers, Colonel Joseph Beck of Poland and Grigore Gafencu of Roumania, who arrived here Saturday, held their conversations between official functions for the visitor.

Poland, according to "the chief bureau of statistics," in 1931 had 3,114,000 persons, or 9.8 per cent of the total population, professing the Hebrew faith.

Five per cent of Roumania's population, according to figures for 1934, was registered as Jewish.

Germany and Italy were said to be pressing Poland to take radical action against the Jews in the manner of the Rome-Berlin axis.

Ormond to Put Up New Plant

Expenditure of Between \$80,000 and \$90,000 Planned for Building

Plans to construct a new biscuit manufacturing plant, costing between \$80,000 and \$90,000 for the building and equipment, have been announced by A. E. Ormond, president and managing director of Ormond's Limited.

The structure, a three-story concrete building with basement, facing on Russell Street, Victoria West, will be started when James E. Ormond, director of the company, returns from a visit to the south, where he is inspecting plants and machinery. It should be under way before the end of May.

The new development will be undertaken on property adjoining the present factory at 242 Mary Street. The latter will be used as a warehouse and garage when the new building is completed.

Mount Rainier, Wash., one of the highest peaks in the continental United States, once was a volcano. It was discovered in 1792 by Vancouver, who disregarded its Indian name of Tacoma and named it after Admiral Rainier of the British navy.

Mayors to Ask Ottawa Assume Relief Costs

MONTREAL (CP)—The management committee of the Canadian Federation of Mayors and Municipalities decided Saturday the federation's annual meeting next April in Ottawa will discuss resolutions calling for the Dominion Government to assume the country's whole unemployment relief burden, and for the Bank of Canada's forced lending to provinces and municipalities.

In regard to the Bank of Canada, committee members felt that it should be a "bank for Canada, and for Canadians, and therefore should make credit more readily available to the people of Canada. The municipalities believe they could do better by financing through the national institution than they can through methods presently available."

Parrot Scared Off 3 Armed Bandits

TORONTO (CP)—A talkative parrot was credited with frightening away three armed bandits early yesterday before they could complete a search for money at a lonely roadside lunch stand of suburban West Hill.

The trio escaped in a stolen automobile with \$36 and a quantity of tobacco. A sum of money hidden in a bedroom was missed.

They were about to search drawers where the sum of money was hidden, when the parrot, whom the bandits did not see, shrieked "Hello, hello."

The men dashed from the store and raced away in an automobile.

143,000 See B.C. Exhibit

SAN FRANCISCO (CP)—A total of 143,000 visitors saw British Columbia's exhibit at the Golden Gate Exposition on Treasure Island during the first 16 days of the show, it was reported here. Sunday 15,000 examined the display.

The yarrow plant grows from sea level to timberline.

Chas. F. Eagles, Realtor, Passes

Cousin of John Barrymore Had Resided Here 20 Years

Charles Frederick Eagles, 66, well-known realtor and first man to draw a picture of the elusive sea serpent Cadborosaurus died Saturday night in St. Joseph's Hospital after a short illness.

Native of Liverpool, Eng., Mr. Eagles had a most colorful career. Although he never practiced in Victoria he was a qualified medical practitioner, taking his degree in San Francisco. Later he went to Chicago and graduated the theatrical business.

He is survived by a widow and one daughter, Betty Alice, here, a brother, John, in Burnaby, B.C., and a nephew, Prof. Blythe Eagles.

The funeral will be held on Wednesday afternoon at 2:30 from Thomson's Funeral Parlors.

LATE CHAS. F. EAGLES

ated as an osteopath. He was a mining broker in Rossland and Nelson during the boom days of the late '90s and early in this century. He also studied law in California. He was admitted to the bar but never practiced that profession.

Mr. Eagles practiced as an osteopath in Brandon, Man., for 15 years, being the first registered osteopath in Canada. He then

entered the theatrical business, built the old Princess Theatre in Brandon and a string of seven others in Winnipeg and other prairie cities. During this time he put two stock companies on the road. He sold out to the late William Sherman in 1911 and started a chain of moving picture houses on the prairie.

Coming to Victoria about 20 years ago, Mr. Eagles entered the real estate and insurance business. Later he established a tea room at Cadboro Bay and it was while at that resort he saw "Caddy" disappearing itself in the water and on the rocks. He drew a picture of the sea serpent from memory and had it registered.

Mr. Eagles was a cousin of John Barrymore and bore a striking likeness to the other Barrymore brother, Lionel.

He is survived by a widow and one daughter, Betty Alice, here, a brother, John, in Burnaby, B.C., and a nephew, Prof. Blythe Eagles.

The funeral will be held on Wednesday afternoon at 2:30 from Thomson's Funeral Parlors.

Goering Visits Italian Riviera

Expected to Go to Rome and Then to Libyan Fortified Areas

SAN REMO, Italy (AP)—Field Marshal Hermann Wilhelm Goering, Germany's No. 2 Nazi, was welcomed to Italy yesterday with shouts of "Heil Hitler" and "Heil Goering" as he and Frau Goering arrived for the announced intention of vacationing on the Italian Riviera.

Diplomats, however, attributed far greater significance to the visit of Reichsfuehrer Hitler's chief aide. It was understood that after a short rest Goering would go to Rome and then to Libya to inspect fortifications in that Italian north Africa territory.

Diplomats link Goering's visit particularly with Fascist territorial demands on France which, in their opinion, Premier Mussolini almost certainly will make specific soon.

GAYDA FORESEES WAR

ROME (AP)—A flat charge that the great democracies are preparing to start a war shortly to destroy the totalitarian states was made yesterday by Virginio Gayda, Fascist editor who often reflects Premier Mussolini's thoughts.

"Everything proves the great democracies are moving speedily toward war," he wrote in La Voce d'Italia.

Asserting the democracies were pouring "tens of billions" into armaments, Gayda said "every investment demands a profit, especially in capitalistic regimes which are called democratic. The profit of billions spent for cannon is offensive war."

He said that, considering the "now evident aim of the united democracies to unloose an offensive shortly," Italy could only provide herself with new armaments, as she recently announced she was doing.

Great Britain's huge expenditure for her army, Gayda continued, "announces the firm intention of England to transfer herself to the continent with land forces."

He said events had confirmed his previously expressed suspicion that British Prime Minister Chamberlain's formula of "peace by negotiation" rapidly was changing to one of "peace with intimidation."

25 Years Ago

March 6, 1914
(From the Times Files)
Ed. Hill, one of the executive of the Victoria Lacrosse Association, said that it had been definitely decided that the city was to have a professional lacrosse team this year. Plans have been made for its organization and should mature shortly.

A motorist was fined \$20 in police court this morning for driving along Esquimalt road at a speed in excess of 10 miles per hour.

The Sons of England have signed up Thoburn, the former James Bay goal-tender, and it is probable that they will have this star in the net in tomorrow's game against the Bays.

According to a statement made by a prominent member of the Wanderer Rugby Club, the Wanderers will play no more rugby this season. They are now tied with the Bays for the title and as the Bays have several members of their team suspended the Wanderers do not think that there would be much honor in winning the championship unless the Bays were at full strength.

It is thought that a swift could make a nonstop flight around the globe, in good weather.

Just Arrived . . .
A Beautiful Spring Selection of
English Tobralco
and Other Fine
Cottons
Newest Designs and Colorings!

DAVID SPENCER LIMITED

If you could read Your Future

How DIFFERENTLY you would plan your savings programme—if you knew exactly how long you were going to live.

If, for example, you knew that you were destined to live only a few short years, you would endeavour to obtain adequate Life Insurance protection for your family.

Or, if you knew that you were going to live to a ripe old age—then you would be vitally interested in a guaranteed pension.

But lacking any occult power to know the future, your savings programme should accomplish two distinct purposes. First, it should provide financial protection for your loved ones. Secondly, it should guarantee a retirement fund for your own old age.

Only through Life Insurance can the average person attain both of these important objectives. Because of this fact, millions of far-sighted Canadians have decided to "Save and be Safe with Life Insurance".

DISPLAY AT THE B.C. ELECTRIC

Clubwomen's News

The Women's Guild of Friendship will hold a silver tea and sale of work on Wednesday from 3 to 5 at 1210 Fort Street.

Victoria Women's Service Club will meet tomorrow evening at 8 in the British Imperial Veterans' clubrooms, Courtney Street.

W.A. to Pro Patria branch, Canadian Legion, B.E.S.L., will hold their general meeting on Tuesday evening at 8 in the Eagles' Hall, Government Street.

Queen Alexandra Review No. 1, Woman's Benefit Association, will hold a business meeting in the K. of C. Hall this evening at 8.

The Ladies' Society of St. Alban's Church will hold their next meeting on Tuesday afternoon at 2.30 at the home of Mr. T. Bridges, 1742 Albert Avenue.

The regular meeting of Queen of the Island, L.O.B.A., will be held in the Orange Hall, on Wednesday at 7.30 p.m. Cards will follow the meeting and refreshments will be served.

The Native Daughters of British Columbia, Post No. 3, will hold their monthly meeting on Wednesday evening at 7.30 at the K. of C. Hall. The initiation ceremony will take place.

Miss L. Moss of the Children's Aid Home will speak on "The Child and Some of His Problems" at the monthly meeting of the Langford Parent-Teacher Association to be held on Wednesday in the schoolhouse at 8.15. Executive meeting for all members at 7.45.

The W.A. to the Navy League will hold a daffodil tea in the Y.W.C.A. on Saturday afternoon, March 11, from 3 to 5.30. Mrs. R. Shanks is the general convener, and it is hoped that all who are interested in the Rain-bow Sea Cadets will attend.

Knox Presbyterian Ladies' Aid are arranging a get-together social at the home of Mrs. Wiltshire, 2449 Clarke Street, on Wednesday evening at 8. As March is donation month, members are asked to have them all in that time.

The Brentwood Women's Institute held a special meeting recently to make arrangements for the catering of the Board of Trade banquet, which will be held on March 17. Mrs. G. Bickford was appointed general convener of the committee. Pictures of the Coronation and other interesting pictures were shown recently by Rev. Montague Bruce, who was thanked by the president, Mrs. A. R. Anderson. The proceeds will go towards the institute funds. The monthly meeting will be held on Tuesday afternoon March 14, at 2.15.

Lodge Princess Alexandra No. 18, Daughters of England, met recently with Mrs. H. E. Baker presiding. Visitors included the district deputy, Mrs. A. James and Mrs. A. Edmonds, president of Lodge Primrose. Two new members were initiated. The social club will meet at the home of Mrs. A. Bell, 2605 Dalhousie Street, on Tuesday, March 14, at 7.30. At the close of the meeting the past presidents were the guests of the members. Refreshments were served by Mrs. D. Bell and committee. The next meeting will be held on Thursday, March 16, at 8.

The J.B.A.A. auxiliary held a well-attended and enthusiastic meeting recently at the new clubhouse. The principal business before the meeting concerned the St. Patrick's Day dance to be held in the clubhouse on March 17. Mrs. J. Allison, chairman of the dance committee, reported that tickets, which can be obtained from members, Francis' Jewellery store on the Vancouver Drug, are being taken up very well, and it is suggested that anyone not having tickets obtain them as early as possible, as the number is limited. The floor show is under the direction of the Misses E. Doherty, I. Brockington and B. Moore.

Hitler's Flowers For U.S. Dancer

Pittsburgh Girl Is Honored At His Reception

BERLIN (AP)—Miriam Verne, young Pittsburgh dancer, received flowers and candy from Adolf Hitler for her performance at an artists' reception he held in the Reich's chancellery last night.

Miss Verne, who has been dancing at Berlin's Metropol Theatre since last September, appeared in her specialty—as a solo dancer before Hitler and his artist guests from all parts of Germany, Propaganda Minister Paul Joseph Goebbels, Deputy Party Leader Rudolph Hess and other high Nazis.

She described the evening as "grand." She had met Hitler before when he dropped in to chat with her and the other entertainers at a tea last Tuesday following a rehearsal.

Miss Verne is the second American dancer to appear before Hitler recently. Marion Daniels, Chicago acrobatic dancer, did an especially arranged performance in one of his favorite light operas, "The Merry Widow," February 22.

Modern Etiquette

By ROBERTA LEE

1. Is it good manners to insist on talking about books or the theatre when your companion is interested in neither?
2. Does it show good breeding to fill your conversation with the names of important people—in order to show that you know them?
3. Is it wise to tell new acquaintances all about yourself?
4. If you are treated rudely, is that an excuse for you to lose your temper and act rude in turn?
5. Is it rude to try to bully a servant?

What would you do if—
You suddenly realize that you have been talking too much—not giving your companion a chance to get a word in edgewise—
(a) Apologize lightly, and then turn the conversation toward the other person's interests?
(b) Keep right on in the way you were going?
(c) Apologize—but make no effort to change the conversation?

Daughter Born Today To Spanish Prince

ROME (AP)—A daughter was born today to Princess Maria of the Asturias and Prince Juan, youngest son and heir of former King Alfonso XIII of Spain. Alfonso and former Queen Victoria were present at the Anglo-American nursing home. The child is the third born to the young couple.

Princess Maria Mercedes of Bourbon-Sicily is 28. She married Juan in Rome October 12, 1935. He often has been mentioned for the throne of Spain in the event of restoration.

Queen's Beauty Expert Gives Girl Advice

NEW YORK (AP)—Gilda, said M. Done Edmond today, have an unfortunate habit of looking men straight in the eye.

"It is not alluring," said Edmond, former court beauty adviser to the late Queen Marie of Roumania. "It makes a man feel inferior. He feels you're trying to probe his mind."

Far better it is to look at him fleetingly, and then look away, continued Edmond.

"Yes, I believe women should be somewhat coy," he said, "but I don't mean baby talk. That's terrible! It annoys a man's nerves."

"Women should learn how to blush. It can be done by exhaling a little longer than they are accustomed."

Former Screen Siren Now Staid Matron

NEW YORK (CP)—Theda Bara, screen siren of the silent movie days whose wiles earned her the surnames of "all true lovers, today is a cheery, refined matron with a literary bent."

Far from being the cold temptress, Miss Bara—Mrs. Charles Brabin in private life—refuses to grant interviews unless she is permitted to read what is going to be printed about her.

"That is because I am shy," she told reporters as she returned from a two-year European trip which she undertook to escape from a "delicious, lazy rut" in her Beverly Hills, Cal. home. She was accompanied by her husband, who is a movie director.

Born Theodosia Goodman in Cincinnati, the actress got the Bara name from her press agent, who simply turned Arab backwards because she played the siren in a series of Arab movies. But all that is in the past and Mrs. Brabin's present interest is the story of her life, which she is writing.

Her old movies, some of which are preserved in film libraries here, "brought out cold perspiration" when she viewed them recently. "It must have been the speed of the machines. They shot you through doors so fast you looked like a cannonball," she said.

As for her parts, "well you were an actress, looked your part and did as you were directed."

Langford

Langford schoolhouse was crowded for the concert held under the auspices of the Parent-Teacher Association. R. M. Haggie, president, was chairman.

The following artists from Victoria and Langford contributed to the program: Contralto solos, Mrs. Harry Youson; songs, Geo. Guy; pianoforte solos, Mrs. Gertrude Macdonald; pianoforte duets, Mrs. C. E. Myren and Geo. Myren; violin solos, Dr. W. W. Bryce; sketch entitled "The Spirit of Peace," Trevor Norman, Micky Staverman, Ada Carlow, Doris Buckley, Melva Aikman, Phyllis Staverman, Norton Welch, Rodney Bayles and Jackie Taylor. The Y.M.C.A. acrobatic team contributed many turns, the tumblers being the Misses Phyllis Blachizza, Holly Rouse, Gladys Knight, Phyllis Crowe, Lucy Ylinie and Skippy Ylinie, Ken Marshall, Douglas Marshall, Chris McKee Jr. and Archie McKinnon.

British Fair Ends

LONDON (CP)—A record number of almost 7,000 buyers from 17 countries visited the British Industries Fair which ended Saturday. The figure represented an increase of more than 700 over last year.

DENY ROYAL VISIT TO SCHOOLCHILDREN

OTTAWA—A series of questions concerning precedence and participation by war veterans and school children in the welcome to the King and Queen to Canada is asked of the government by T. L. Church, Conservative, Toronto-Broadview, in the House of Commons notices of motions and questions.

"Has the attention of the government been called to the table of precedence issued in Ontario, December 20, 1938, from the office of the Lieutenant Governor of Ontario, Legislative Buildings, Queen's Park, Toronto?" he asks.

Further, he wants to know what authority that table has and whether it will apply during Their Majesties' Visit.

Mr. Church also raises the question of whether "royal power" has been delegated to the provinces over the heads of the chief municipalities during the visit and, if so, what precedent there is for such procedure.

"Has the attention of the government been called to the refusal of the board of education of Toronto to leave to include a visit to 22,000 school children at the University of Toronto stadium, after the visit to Hart House?" he asks.

Mr. Church also asks what arrangements have been made for the participation of returned soldiers and school children throughout Canada at the various receptions for Their Majesties.

MISS M. RICHARDS HEADS JOURNALISTS

Member of Colonial Staff Elected President of Victoria Branch

Miss Muriel Richards, of the Victoria Colonist social department, was elected president of the Victoria branch of the B.C. Institute of Journalists at the annual meeting yesterday.

Peter Inglis was elected vice-president; Roy Murdoch, secretary and George Bonavia was re-elected treasurer. Members of the executive committee named were: Edward Fox, past president; Frank M. Kelly, Sid Thomas, Leslie Fox and G. P. Moriarty.

Happy Valley

The monthly meeting of the Happy Valley Parent-Teacher Association was held Thursday afternoon in the school, Mrs. B. Hancock presiding. Announcement was made of an illustrated lantern slide lecture on Ireland on March 17 in the school by G. H. E. Green. The proceeds of the entertainment will benefit the fund for transporting the children during the Royal Visit. Miss Lucille Malkin, R.N., gave an interesting address on the benefits to be derived from vaccination against smallpox. Mrs. R. D. Hoag gave a reading on the work of Italian painters.

ARE YOU TOO AT THE BREAKING POINT?

I was on the verge of a nervous breakdown, and the many remedies I tried gave me no relief whatever. A friend recommended Phyllosan tablets. After taking them every three days I began to feel much better. I have now two bottles now, and feel quite like a new person. My friends tell me I look the picture of health. (Original can be inspected on application.)

The steady strain of work, raw nerves. You are irritable, unsure of yourself. Everything seems to require too much effort. You become discouraged, feel you are just quaking by. At the end of the day you haven't the energy or the spirit to enjoy recreation. Others seem to accomplish things so easily, and you feel you are falling way behind.

Probably you have allowed your system to become run down, depleted. Then no wonder you are under a constant nervous strain—trying somehow to push through and make good—against your own lack of vital energy and stamina! Start taking Phyllosan today. Buy Phyllosan (pronounced Full-O-San) tablets at your druggist's... 85¢ (\$1.50 for double quantity).

Vancouver In Gala Triumph

Sports Mirror

AL SIMMONS announces with the utmost confidence that he expects to play five more years... in the National Baseball League. And the old American League batting champion probably will, provided his creaking underpinning can stand the chill of the Boston Red Sox's blustery left field. A score or so of unwanted American Leaguers now are making the National the elder wheel in more ways than one.

The Bees required hitting and the New York Giants needed a first baseman with a punch, and both probably fortified themselves with Simmons, who was peddled for \$3,000, and Zeke Bonura, who came considerably higher... the guess is \$20,000... after being waived out of the younger circuit.

Simmons appears to have a number of long hits left in his aged system, for in computing an average of .302 with Washington, he manufactured 21 home runs, playing half of his time in a park where they are hard to get, and hit in 95 runs. Between them, Simmons and Bonura, who batted .280, clouted 43 homers and accounted for half of the Senators' runs batted in.

Catcher Luke Sewell's switch from the Chicago White Sox to Brooklyn is something in the way of additional evidence that the eminent author, Thomas Meany, was right... that the National really is another minor. American Leaguers who lose that step don't go to the minors any more. They go to the National League.

After a profitable campaign with the Chicago Cubs, Tony Lazzeri, who helped the New York Yankees to so much world series money, moves into Brooklyn, which also has catchers Luke Sewell and Detroit Ray Hayworth, American League cast-offs, and is bringing up two more, pitcher Whit Wyatt and flycatcher Fred Stinson. As a matter of fact, the Dodgers' shortstop and new manager, Leo Durocher, broke in with the Yankees. With the Cubs last season, outfielder Carl Reynolds and pitcher Jack Russell further demonstrated that the senior circuit was a fountain of youth for American League discards.

Simmons immediately becomes a headliner with the Bees, where he joins other former American Leaguers in starring roles... pitchers Danny MacFayden and Bill Shottner and infielders Rabbit Warfield and Debs Garms. Dick Coffman was a run-o'-mine right-hander with the lowly St. Louis Browns, but instantly became an ace relief worker as a Giant.

There is talk of the ancient and honorable Heinie Manush, who spent 14 years in the American, supplanting Paul Waner in right field for the Pittsburgh Pirates. Southpaw Bob Weiland couldn't get anybody out for great lengths of time in the Americans, but found himself with the St. Louis Cardinals. No wonder Babe Ruth wanted to be returned to the active list last summer. And there is still hope for Goose Goslin.

'Y' BADMINTON TEAM IN WINS

Takes Doubles Events At Puget Sound 'Y' Championships in Seattle

Playing against Y.M.C.A. badminton teams from Seattle, Bellingham, Olympia and Tacoma, the Victoria 'Y' Badminton Club were successful in winning the women's, men's and mixed doubles in the Puget Sound 'Y' championships in Seattle Saturday night.

The locals found competition much stronger than in previous years, but nevertheless made a good showing.

Miss P. Cheer and Miss A. McNaughton turned in a nice performance against the Bellingham team of Kennedy and Rogers to win the women's doubles, 15 to 10, 15 to 7.

Miss Cheer and I. Temple copped the mixed doubles easily with the scores, 15 to 2, 15 to 3. They defeated the Tacoma team of Miss J. Stern and F. Chapman. The men's doubles champion team, I. Temple and D. Martin scored, 15 to 2 and 15 to 8 against W. Adenhouse and J. Guthrie, Seattle.

In the singles, the locals were eliminated in opening rounds.

The team will journey to Portland on April 22 to take part in the Pacific Northwest 'Y' championships.

Percy Norman's Team Dominates Meet; Noel Oxenbury Cracks Record

It's hard to shatter the good humor of rotund Percy Norman, swimming coach for Canada at last Olympic Games and developer of Vancouver's crack coterie of aquatic performers. But the geniality broke down Saturday night.

Percy brought his speedsters to the Crystal Garden and took 14 of the 29 British Columbia championships at stake, but lost the event he wanted. While Noel Oxenbury was cracking a Canadian record in the women's 50 yards backstroke and taking two other events to headline the meet, Percy groomed his girls' relay for an attack on the Canadian women's 200 freestyle mark. Officials, hurrying the events along, sent two local teams away before the Vancouver squad was lined up. Norman blew up, but had regained his composure before the boat sailed.

Sparked by Miss Oxenbury, a veteran at 19, the Terminal City squad swept the meet, with Joan Langdon, breast stroke star, helping the team along by victories in the women's senior 100 yards breast stroke and the junior 50 backstroke. Noel Oxenbury added the 50 and 200 freestyle to her record-smashing backstroke performance to take top honors.

SMART JUNIORS

For Victoria, Frank Hyslop's smart young Pacific juniors and Archie McKinnon's Y.M.C.A. relay claimed the spotlight. Derrick Cosby, Pacific's young hopeful, made a sweep of the juvenile events, taking the 50 back, breast and freestyle, while Barry Taylor, of the same club, signaled his debut in big meets with wins in the 50 and 100 yards junior freestyle. Art Heathcote rounded out the club's showing by taking the 150 yards junior backstroke.

Gordie Lawrence swam away from the field to take the 400 yards senior freestyle for the Y.M.C.A. Len Stark won his specialty, the 100 breast, and Don Davidson took the provincial crown for the 100 yards backstroke for the association team. Two youngsters, Verna Hyde and Jack Lamb, took other individual honors for the Flying Y, the former winning the juvenile girls 50 breast stroke and the latter the 100 yards junior girls breast stroke.

The association teams splashed smart form in the relays, taking the 150 men's medley, 200 yards junior boys, 200 yards senior women's and 200 yards senior men's events.

Lynda Adams, Vancouver, gave a pretty exhibition of diving to beat June Stancil and Margaret Rennie Victoria Amateur Swimming Club aspirants. In that order in the women's springboard event, while Frank Lewis, Vancouver, finished well ahead of Teddy Rau, Y.M.C.A., in the men's event.

Results follow:

50 yards free style senior women—1. Noel Oxenbury (Van. A.S.C.), 2. Joan Langdon (Van. A.S.C.), 3. Betty Bonura (Van. A.S.C.). Time, 29. 100 yards free style senior women—1. Noel Oxenbury (Van. A.S.C.), 2. Betty Bonura (Van. A.S.C.), 3. Gordon Lawrence (Van. A.S.C.). Time, 1:14. 50 yards free style juvenile girls—1. Shirley Muir (Van. A.S.C.), 2. Betty Bonura (Van. A.S.C.), 3. Campaign Kayak II

Winner of Saturday's \$100,000 Horse Race Entered in Eastern Stakes

LOS ANGELES (AP)—Kayak II's brilliant victory in the \$100,000 Santa Anita handicap preceded today an eastern campaign by the four-year-old Argentine runner that may make new turf history.

Charles S. Howard, who bought Kayak at the bargain price of \$7,000 from his son, Lin, and Bing Crosby two years ago, has already named him for the metropolitan handicap and suburban at Belmont, the Dixie handicap at Falmouth and the \$50,000 Massachusetts handicap at Boston next summer.

The lame Seabiscuit, still Howard's pride and joy, will stay in southern California to be pointed for the \$50,000 gold cup handicap at Hollywood Park in the summer.

It was lucky lightning striking twice in the same place that Howard, robbed of Seabiscuit for Santa Anita's "Hundred Grand," should have bobbed up with Kayak.

RECORD CROWD

The mile and one-quarter classic last Saturday, run off before a record throng of more than 65,000 in the record-smashing time of 2:01 2/5, caused horsemen to marvel at the sturdy brown colt from South America.

There could be no excuses from the other 15 contenders in the handicap. Major Austin C. Taylor's Whickee turned in perhaps its greatest performance in finishing second to Kayak. Louis B. Mayer's surprising Main Man did the same thing for third.

Stagehand's track mark, set a year ago in the cap, was lowered a fifth of a second by Kayak, who did it the hard way, starting from post position No. 16 and running on the outside the entire distance, passing the Vancouver-owned Whickee in the stretch.

Jockey Johnny Adams was showered with praise, along with the usual 10 per cent of the winning purse of \$91,100 net. Trainer Tom Smith pocketed a \$10,000 prize tendered by the Los Angeles Turf Club. Adams split his share with Ralph Neves, who was up on Sortado, the other half of the Howard entry.

Result follows:

First race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Second race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Third race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Fourth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Fifth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Sixth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Seventh race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Eighth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Ninth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Tenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Eleventh race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Twelfth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Thirteenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Fourteenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Fifteenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Sixteenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Seventeenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Eighteenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Nineteenth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Twentieth race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5. Twenty-first race—Mile and one-quarter: Santa Anita (Stamper)—\$100,000 \$91,100 net. Kayak II (Adams) 2:01 2/5.

Soccer Results

Young Liberals of the Intermediate Football League placed the Injured Players' Cup in their well-filled silverware cabinet Saturday when they defeated Cavays 5 to 0 at Beacon Hill in the final.

Terry Carlow was top scorer for the winners. He bagged a trio of goals. Ralph Cozier and Bert Politano scored the other two. The half time score stood 4 to 0.

MERCHANTS' LOOP

Admirals scored their first victory Saturday in Merchants' Football League competition, defeating the Navy 2 to 1, at Victoria West Park. Thirteen times previously Admirals fielded a team against the opposition, but could not register a win, although they succeeded in getting draw verdicts against Conservatives and Mount Tomlin.

So after 10 defeats Admirals came into their own against the Navy. End to end play predominated for 30 minutes before Port scored for the Navy, the only score of the half. Recommencing, Bennett tied matters up with a hard shot from the wing. The Navy goalie had several narrow escapes and was finally beaten again, this time by Alexander. It was the winning goal. P. J. Woodley refereed.

At Victoria High School Mount Tomlin played to a 1 to 1 draw against Young Conservatives. Drummond converted a penalty kick to give Conservatives a 1 to 0 lead at half time. In one of Tomlin's second half raids the ball bounced off a defender for the equalizing goal. E. Bray refereed.

Esquimalt Meat Market won by default from Hill's Corner in the Juvenile League.

Coach Mickey Murray's Oak Bay Wanderers are the new champions in intermediate rugby competition. The boys clinched the second half championship Saturday afternoon at Macdonald Park with a 33 to 9 victory over Navy and as they won first-half laurels they take possession of the trophy without having to engage in a playoff. There is still a postponed game left between the Wanderers and Victoria College but as the outcome will not affect the standings it probably will not be played.

Murray's boys hit championship stride early in the season and kept up the good work all through the schedule, suffering only one defeat. In Saturday's game the new champs had it over the sailors like a blanket. Play was centred in the Navy's half of the field for most of the game. The winners scored eight tries and bagged points from three conversions and one free kick.

Another intermediate game played at Macdonald Park saw Victoria College defeat Canadian Scottish, 18 to 3. The Collegians had a 3 to 0 lead at the half. Minor injuries were suffered by Page of the Oak Bay Wanderers, Baxter and Luxton of the Scottish and Bob McKean of Victoria College.

Schriner Gains Point On Blake
Dave (Sweeney) Schriner of Americans gained a week-end assist to advance a point on the first-place Hector (Toe) Blake of Canadians in the National Hockey League race for individual scoring honors. Blake heads the pack with 40 points, two more than Schriner. Five players are tied for fifth place with 33 points.

Leaders follow:
Blake, Canadians... 40
Schriner, Americans... 38
Fottschig, Chicago... 35
Anderson, Americans... 35
Carr, Americans... 33
Smith, Rangers... 33
Howe, Detroit... 33
Apps, Toronto... 33
Barry, Detroit... 33

Provincial Cup Football Draw
VANCOUVER (CP)—Powell River, the team that gave North Shore United a scare in the Dominion football series last season, is slated to meet St. Andrews in the first round of the Provincial Cup draw, announced Saturday by the British Columbia soccer commission.

All mainland league squads were given byes in the preliminary round. St. Saviours and North Shore United, Mainland Cup finalists, will meet in the first round proper, while Radials, New Westminster Royals, Vancouver United and Police or Kerrisdale drew byes in the first round.

The draw for Vancouver Island play resulted as follows:
Upper Island (First round proper)—Cumberland Rangers vs. Ladysmith, West Coast United vs. Eagles.

Lower Island (first round)—Victoria City vs. Saanich Thistles, Navy vs. Garrison, Esquimalt vs. Young Liberals, Victoria West (bye). Second round: Victoria West vs. Navy or Garrison, Esquimalt or Young Liberals vs. Victoria City or Saanich.

The United Services rugby team will hold a practice tomorrow night at 7 at Macdonald Park. The United team is slated to go up against I.R.A.A. Saturday in the final game of the second half Bernard Cup schedule.

Wolverhampton Plays Grimsby

English Football Cup Semifinals Drawn; Scottish Draw Made

LONDON (CP)—Semifinal matches for the English football cup will be played March 25 at Manchester and London. In the draw made today Wolverhampton Wanderers were drawn against Grimsby Town and Portsmouth will play the winner of Huddersfield Town-Blackburn Rovers sixth-round tie.

Manchester United's ground was set as the venue for the Wolves-Grimsby contest, the other semifinal will be staged at Highbury, home of the Arsenal. At Huddersfield Saturday, Blackburn Rovers and Huddersfield Town played a 1 to 1 tie and the replay will take place this week.

The draw: Portsmouth vs. Huddersfield Town or Blackburn Rovers, at London; Wolverhampton Wanderers vs. Grimsby Town, at Manchester.

SCOTTISH DRAW
GLASGOW (CP)—Hibernians clash with Clyde and Aberdeen opposes Motherwell in semifinal matches for the Scottish football cup to be played March 25. Following the draw made today it was decided to stage the Hibernian-Clyde game on Heart of Midlothian's ground in Edinburgh and Broxburn Park, Glasgow, will be the scene of the other semifinal.

Both contests should result in rousing tussles. Pregame speculation favors Clyde, conqueror of Glasgow Rangers, in the match at the Scottish capital, but Aberdeen and Motherwell are more evenly matched. The draw: Hibernians vs. Clyde, at Edinburgh; Aberdeen vs. Motherwell at Glasgow.

KILIAN-VOPEL RETAIN LEAD
Head Riders in Milwaukee Bike Race; Peden and Andy Are Fourth

MILWAUKEE (AP)—Two teams shared the lead in the six-day bike race at the end of the 129th hour today. The German duo of Gustav Kilian and Heinz Vopel had the edge over Jimmy Walthour and Al Crossley in points but they were tied in laps.

Standings follow:

VANCOUVER WINS OVER SPOKANE
Lions Win 3 to 1 to Nearly Clinch Playoff Berth in Coast Hockey

SPOKANE, Wash. (AP)—A great celebration should be in order today for Guy Patrick and his Vancouver Lions, who after a long struggle with Spokane Clippers at last appear to have clinched a berth in the Coast Hockey League playoffs.

Lions beat Clippers 3 to 1 here last night, and only the barest chance remains that Spokane will get the final call.

Vancouver's sparkling win, before the largest crowd to see a hockey game here, put the Canadians two full games ahead of the inland Empire team, which meets Vancouver in a return tilt to-night.

Cunningham Wins
NEW YORK—Glenn Cunningham bestrode the track world yesterday, dominating it as completely as any runner in history, even Paavo Nurmi, has ever done.

Great runner and record-maker at 1,000 yards, 1,500 meters and the mile, the Kansan stepped out of his groove Saturday night and soundly whipped Don Lash, the world's premiere two-miler, in a thrilling struggle.

City and Navy In Soccer Wins

Former Defeat Victoria West 3 to 2; Sailors Down Thistles 2 to 1

A blood and thunder battle was what you might have called Saturday's semifinal soccer match for the McGavin Cup, when Victoria City defeated Victoria West 3 to 2 at the Athletic Park.

Navy footballers won the right to meet the City squad in the final round by taking the Saanich Thistles at the Keywood Avenue grounds by a score of 2 to 1.

The St. John Ambulance Brigade attendant at the Athletic Park was kept busy all afternoon, what with knocked out teeth, twisted legs and general injuries to the players. City's top-notch goalkeeper, Wally Rowe, was the first to need treatment at about the 15-minute mark, when he was sandwiched in a mix-up in the mouth of the goal. From that time on both teams played a bruising game.

Victoria West went on the field with 10 men. After minutes of play in the second half Roy Barnes, centre-half, complained in no uncertain terms to the referee for a decision called and he was ordered from the field, leaving only nine players. Chuck Restell came on for the West soon after bringing the number of players up to one in arrears again.

BOSTON BEATS RANGERS
(Continued from Page 9)
place Toronto Maple Leafs. Twice the Wings took leads and Americans caught up. But Detroit went ahead to stay on Eddie Goodfellow's goal in the second period and Carl Liscombe added another in the third.

The Maple Leafs picked up only one point during the week-end, being held to a 1 to 1 tie Saturday night at Toronto. Cully Dahlstrom scored for Chicago in the first period and Bob Davidson for Toronto in the third.

PARSONS BADLY HURT
The night was disastrous for the Leafs, for George Parsons suffered an eye injury when he was hit by Earl Robinson's stick that will keep him out for the season. There is a possibility the young wingman's sight may be impaired permanently.

The Hawks pulled into a sixth-place tie with Montreal Canadiens through the division in points, but slid right back into the cellar last night. Montreal defeated the Hawks 2 to 1 at Chicago on Polly Drouin's overtime goal. Joe Cooper scored for Chicago with five minutes to play and Lou Trudel evened the count a minute and a half from the end of regular time.

TORONTO-CHICAGO
First period—1 Chicago, Dahlstrom (Gottselig), 12:30. Penalties, none.
Second period—Scoring, none. Penalties, none.
Third period—2 Toronto, Davidson, 3:19. Penalty, Robinson (major).
Overtime period—Scoring, none. Penalties, none.

BOSTON-RANGERS
First period—1 Rangers, Smith, 3:05; 2 Boston, Cowley (Conacher), 10:05. Penalty, Heller.
Second period—3 Rangers, Shibley (N. Colville, M. Colville), 14:07; 4 Boston, Cowley (Clapper), 16:55. Penalties, Hexall, Shore, Miller.
Third period—5 Rangers, Dillon (Smith, L. Patrick), 5:25; 6 Boston, Bauer (Schmidt, Dumart), 19:12. Penalties, M. Patrick (minor) and 10-minute misconduct, Hollett.
Overtime period—7 Boston, Schmidt (Bauer), 3:00; 8 Boston, Conacher (Clapper, Cowley), 5:19. Penalties, none.

DETROIT-AMERICANS
First period—1 Detroit, Wares (Goodfellow), 2:19; 2 Americans, Carr (Schriner, Anderson), 7:39; 3 Detroit, Conacher (Barry, Howe), 17:07. Penalties, Kilrea, Smith.
Second period—4 Americans, Anderson (Wiseman, Stewart), 8:45; 5 Detroit, Goodfellow (Kelly), 11:52. Penalties, Wares, Jenkins, Young, Jackson, Bowman.
Third period—6 Detroit, Liscombe (Goodfellow, Bowman), 16:12. Penalty, Schriner.

CANADIENS-CHICAGO
First period—Scoring, none. Penalties, Gagnon (major), Northcott (major), Wentworth.
Second period—Scoring, none. Penalty, Wiebe.
Third period—1 Chicago, Cooper, 15:14; 2 Canadiens, Trudel (Lorrain, Drouin), 18:30. Penalties, none.
Overtime period—3 Canadiens, Drouin (Trudel, Lorrain), 6:47. Penalties, none.

Westerns Even Cage Playoff

Defeat Tookes 39 to 29 In Second Game of Mainland Final

VANCOUVER—Vancouver Westerns tied up the Intercity Basketball League best of five series here Saturday night when they overcame a first-half disadvantage to beat Tookes 39 to 29.

Both teams have won a game in the series for the right to meet Victoria Dominions in the Lower British Columbia playoffs.

It was a rough and tough contest with Joe Ross shining for the 1938 Canadian champion westerns by tossing in 13 points. Fifteen fouls were marked up in the last half, which featured a scuffle between Ralph Henderson of Westerns, and Jack Purves of Tookes. The latter was sent off the floor two minutes from the final whistle because of the disturbance.

Tookes started out with a burst of speed and ran up a 6 to 1 score early in the first period, but centre Joe Ross of Westerns saved the day by shooting in four points before the period ended.

The second period was slow with both teams checking tightly but Tookes finished the session with a 15 to 11 advantage.

Westerns started to open up in the third frame and took a 22 to 17 lead before the frame ended, thanks to the work of lanky Jim Bardsley, who tossed in six points. They displayed better team work from here on with less emphasis on individual performance.

Art Willoughby was next in the scoring honors list for the winners, accounting for 10 points while Bardsley was third with nine.

For Tookes, John Purves had seven, and Russ Kenington eight. Tookes won the first contest last Tuesday, 34 to 32, and the teams meet tonight in the third game.

Now Air Pioneer
LONDON (CP)—Speaking on behalf of an air service company that sought a license to run planes to race meetings, Steve Donoghue, famous jockey, said he was "possibly the pioneer of flying" in his profession.

A pack rat in Yosemite National Park carried off 118 dimes from the park hotel and cached them away in his nest.

NAVY WINS 2 TO 1
Scoring their lone goal with minutes to go, Saanich Thistles made things look a little better on their 2 to 1 defeat at the hands of Navy.

At the 23-minute mark Will De Costa, left-half, scored Navy's first goal on a rebound following a mix-up at the Saanich nets. Up to this point the Navy lads had looked somewhat better in combination play troubling the Saanich goalie, Webster, no end. He pulled many a nice save throughout the encounter.

At the start of the second half the sailors looked even better and at the 10-minute point of the period Cockrill, centre-forward, took a nice pass from Geddes, right wing, and sank the shot for their second marker.

With less than six minutes to go Saanich made their goal when MacDonald, inside-left, waited for Goalie Mundie to come out for a long shot, and grabbed the ball to score.

Dave Swan refereed. Teams follow:
Navy—Mundie, McDonald, Hall, Sands, Robinson, Hutton, Geddes, Ross, Cockrill, W. De Costa and Walker.
Saanich Thistles—Webster, Bissenden, Crowe, Underwood, Mowat, Speller, Hope, Robson, Wensley, MacDonald and Gibson.

TENNIS MEETING
The Victoria Lawn Tennis Club will hold its annual meeting tomorrow night at 8 in room 318, Belmont Building. Reports on 1938 activities, election of officers and shaping of plans for 1939 will be the chief items on the agenda. W. E. "Reg" Corfield, president, will be chairman.

That eclipsed the accompanying I.C.A.A.A. championship meet—won by Manhattan with 36 points—and every other event run this winter.

Westerns Even Cage Playoff

Defeat Tookes 39 to 29 In Second Game of Mainland Final

VANCOUVER—Vancouver Westerns tied up the Intercity Basketball League best of five series here Saturday night when they overcame a first-half disadvantage to beat Tookes 39 to 29.

Both teams have won a game in the series for the right to meet Victoria Dominions in the Lower British Columbia playoffs.

It was a rough and tough contest with Joe Ross shining for the 1938 Canadian champion westerns by tossing in 13 points. Ship Here for Engine Repairs

Ss. Brandon Getting
Piston Valve Fixed
While Taking Cargo

To repair engine trouble which developed on the voyage out from Newcastle-on-Tyne, British freighter Brandon, which arrived at the Canadian National docks early this morning, will be in port three days. The tug Snohomish, of the Island Tug and Barge Company, stood by as the Brandon warped into her berth at 6.45 this morning, but was not required to put a line aboard the freighter. Other tugs of the local company will be used in towing the vessel from point to point while she is loading cargo in the outer harbor. Lumber started going overboard as soon as the ship had been tied up at the south berth of Pier B today. By tomorrow the Brandon will go under the spouts at the Ogden Point elevator of the Gillespie Grain Company to stow 2,000 tons of grain. In the meantime a gang of workmen from Yarrows Limited took charge of the engine room and opened up the main engine to repair a refractory piston valve.

Leaving the Tyne early in February, the Brandon ran into bad weather on the Atlantic. In ballast, the ship was riding high and pounded badly. It was so bad one night, Capt. Thomas Reid said, that the vessel was hoisted to the storm.

Better weather was experienced on the Pacific side, but the Brandon, with her engines not functioning properly, made slow headway, averaging about seven knots an hour.

The Brandon is a vessel of about 10,000 deadweight tons capacity. On her previous voyage the Brandon was away from England for ten months. Capt. Reid stated. She loaded coal for Gibraltar, took phosphates at Casablanca for Capetown and proceeded to India and Hongkong, thence for Montreal.

Around the Docks

N.Y.K. LINER HERE
EARLY TOMORROW

Laden with 1,420 tons of cargo for Vancouver and overland delivery and with 83 passengers in her cabins, Ms. Hie Maru, of the Nippon Yusen Kaisha, will make William Head at 3 tomorrow morning from Japan, according to Harry Douglas, general agent for the Great Northern Railway. The Hie Maru's cargo includes 75 packages of silk. Passengers for Vancouver total two tourist and 42 third class and for Seattle, two first, two tourist and 35 third class. After passing quarantine tomorrow morning the Hie Maru will proceed direct to Vancouver. William Harold, Great Northern city ticket agent, will accompany the ship to the mainland.

Buoys Goes Adrift

Col. A. W. R. Wilby, agent for the Department of Transport, advises mariners that the red and black steel can buoy marking Joan Rock, Prevost Passage, B.C., is reported adrift from its position. This buoy will be replaced as soon as possible, it is announced.

Crewmen Are Released

After taking aboard three members of her crew from quarantine, Ms. Queen Victoria cleared from William Head at 5 yesterday afternoon for Australia.

The three were James Wright, ship's messboy, who was suffering from smallpox when the ship arrived from Shanghai February 5; W. Jamieson, and A. McLachlan, held as suspects. Only two of the Queen Victoria's crew now remain in hospital at William Head. Leslie Ohman and Anthony Leslie. They will be sent back to England on recovery.

Lumber Boats Expected

The British freighters Apple-dore and Beckenham are expected at the Canadian National docks tomorrow to load lumber. This will be the second visit of the Beckenham to Victoria this month.

Henry King of King Bros. reports the Greek freighter Frangoula B. Goulardis arriving here Wednesday for lumber cargo.

2 Ships Due Tonight

Two ships from the United Kingdom will make port late tonight.

Ms. Pacific President of the Furness (Pacific) Line is expected to arrive at the Rithet docks at 10.30 from Manchester. Ms. Parthenia of the Donaldson Line is looked for about 11.30.

Boulderpool At Shields

Ss. Boulderpool, which put back to Victoria with her deck load shifted after being battered in a Pacific storm early in January and spent several days undergoing repairs at Ogden Point, is reported to have arrived at Shields, England, February 27.

Low Orient Fares To Promote Travel

3 Trans-Pacific Lines Announce Agreement For April and May

SAN FRANCISCO (AP)—American President Lines, Canadian Pacific Steamships and Nippon Yusen Kaisha announced yesterday an agreement for special trans-Pacific passenger rates during April and May of this year.

The three lines, in the joint announcement issued here, said the rate would give a full round trip passage to the Orient from San Francisco, Los Angeles, Seattle, Victoria or Vancouver, B.C., for the present one-way fare.

Purpose of the plan, the lines said, was to promote travel by North Americans to the Orient and that newspaper advertising would be used to advise the public of the special rate.

Spoken By Wireless

March 6, 9 p.m.—Shipping: The Ss. Victoria for Victoria via Honolulu, 1,380 miles from Victoria. EMPRESS OF JAPAN arrives Shanghai 1 p.m. today.

THURSDAY, Sydney, N.W., for Taku Bay, China, 2,000 miles from Sydney. DECCA MARU, for Vancouver, 600 miles from Vancouver.

PACIFIC PRESIDENT, Manchester for Victoria, 500 miles from Victoria, 4 p.m. Sunday.

ATLANTIC, for San Pedro, 250 miles from San Pedro.

TRADA, San Pedro for Vancouver, 600 miles from Vancouver, 200 miles from San Pedro.

Shipwrecked Duke At Los Angeles

Sutherland Party Continuing Interrupted Tour to Hawaii

LOS ANGELES (AP)—The Duke and Duchess of Sutherland arrived here Sunday with a party of guests by train from Guaymas, Mexico, to resume a tour to Honolulu interrupted when their yacht Sanspur was wrecked off the tip of Lower California.

The yacht has been temporarily repaired and is proceeding here. The Duke's party will continue its tour next Thursday, when it will sail for Hawaii on the Matson liner Matsonia.

One member of the party, Viscount Monseil, former First Lord of the British Admiralty, will return from here to London.

Other guests are Mrs. Sloan Stanley, Lady Margaret Egerton and Miss Leveson-Gower. They were met at the station here by Countess Dorothy Di Frasso and the Earl of Warwick.

ACTIVE YACHTING SEASON PLANNED

Season Will Be Inaugurated May 13, Preceded By Dance

Royal Victoria Yacht Club's activities for the 1939 season will be officially inaugurated on May 13 when the first race of the series for stars, dinghies and snipes will be run off Cadboro Bay.

The opening dance of the season will be held at the clubhouse on the evening of May 12. The schedule released by the program committee points to greatly increased sailing activities by the amateur yachtsmen this season.

Races in the Sunday series for stars, dinghies and snipes will be increased this year to 14. A special race for the Virtue Cup for auxiliary cruisers will be sailed June 25. Four club cruises will be held during the season, including a cruise for juniors under the fleet captain. The annual picnic will be held May 24.

The annual regatta of the club will be held August 19 and 20, with the Cowichan Bay regatta slated for Labor Day weekend. This year the Pacific International Yachting Association's regatta will be held at Bellingham, from July 1 to 6.

C.N.R. Places Order For Railway Cars

MONTREAL — An order for five mail and express cars and 10 baggage cars has been placed with the Canadian Car and Foundry Company Limited at Montreal, it was announced today by R. C. Vaughan, vice-president, purchases and stores for the National system.

These 15 cars will be of all-steel construction designed and built in accordance with the most modern requirements. They are of the types standard to the National system and will be used in main line services.

Pilots' Lookout

Br. Ss. Brandon arrived at Canadian National docks from Newcastle-on-Tyne, 7 a.m.

Br. Ms. Queen Victoria left William Head for Australia, 5 p.m.

No. Ss. Romulus, for Vancouver, passed 6 p.m.

U.S. Ss. Richmond, Vancouver for San Francisco, passed 1 a.m.

Br. Ss. Dallington Court, Vancouver for China, passed 2.30 a.m.

Br. Ss. Royal Sceptre, for Crofton, passed 7.45 a.m.

U.S. Ss. Mauna Loa, for Fraser River, passed 8.15 a.m.

Rifle Club Results

Rainbow Rifle Club held its weekly shoot on Saturday afternoon, results out of a possible 100 were as follows:

A Class—W. Acland, 100; W. Brown, 99; R. Ferguson, 98; R. Sutherland, 98; N. Anderson, 97; P. Mackenzie, 96; H. Davies, 95.

B Class—F. E. Balson, 98; Miss G. MacFarlane, 98; Miss S. Jones, 97; W. Pollard, 96; Miss M. Acland, 95; Miss B. Statham, 95; Miss R. Raymond, 93; Mrs. M. Balson, 92; A. Carter, 92.

C Class—J. Gwilt, 87; W. Christenson, 86; H. Lane, 83; J. King, 80; D. Wilson, 67.

Wheat

WINNIPEG (CP)—Weakness at Liverpool and lack of aggressive support brought small losses to Winnipeg wheat future prices today. Final quotations were 1/4 to 1/2 cent lower, May at 62, July 62 1/2 and October 63 1/2.

Although overseas houses were credited with minor purchases, export sales of Canadian wheat were confined to a few loads worked from Vancouver.

Indication that wheat was accumulating rapidly in Argentina was shown by an unconfirmed report which said the Argentine wheat board had suspended temporarily the acceptance of wheat from growers. Minor selling developed following receipt of this unofficial advice.

Liverpool was 1/4 to 1/2 lower. Chicago also lost fractions while Buenos Aires remained unchanged.

Cash wheat trade brought out some support for the lower grades and a little domestic demand for durum. Pit trade in the coarse grains centred in flax, which registered small gains.

Saturday's country marketings totaled 151,000 bushels against 129,000 in 1938.

Profiteers Active

NEW YORK (AP)—The stock market met profit-taking reverses today and leaders yielded fractions to two points.

Buyers were encouraged in the early part of the proceedings by a forward move in the utilities. This soon slackened, however, when aircraft, steel and motors softened. Notwithstanding spottiness of trends, highs for the past year or so were plentiful at the start. Transfers approximated 900,000 shares.

Prominent in the retreat were U.S. Steel, Bethlehem, General Motors, Chrysler, Glenn Martin, Boeing, Douglas Aircraft, Westinghouse, Du Pont, Phillips-Morris and General Electric.

Resistant were American Smelting, Phelps Dodge, International Harvester, American Telephone, Chesapeake & Ohio, United Fruit, Zenith Radio and Allied Chemical.

U.S. governments and selected corporate loans were up in the bond department. Commodities were mixed. Sterling and the French franc, near mid-afternoon, were a shade improved, the former at \$4.68 1/2 and the latter at 265 1/2.

Canadian shares held close to Saturday's finishing levels. McIntyre Porcupine and Lake Shore dipped minor fractions, and Dome added as much, while others were about unchanged.

(By H. A. Humber Ltd.)
Dow Jones averages closed today as follows:
30 Industrials 148.84, off 0.65
20 Rails 32.53, off 0.45
15 Utilities 33.78, off 0.31
60 Bonds 91.51, up 0.04
Total sales—\$10,000.

The Oceans and Ocean Life

1—SEA WATER

What a large part of our earth is covered by salt water! It spreads over nearly three-fourths of the globe! We speak of five oceans, but they are all joined in one way or another. We might say the earth has only one huge ocean, but people have given special names to the parts.

Diagram showing different instruments used to learn about the deep sea.

The Arctic Ocean is larger than Canada and Greenland together. The Atlantic has more square miles than Africa, Asia and Europe combined. The Pacific is twice as large as the Atlantic; it has more area than all six of the continents.

There is deep water in the oceans! The average depth is about two and a half miles. Not many lakes are more than 300 feet deep, and the water in most lakes goes down less than 100 feet.

One place in the Atlantic is five and a half miles deep. It is north of Puerto Rico. In the Pacific a spot near the Philippine Islands is six and a half miles deep. That depth is greater than the height of the earth's tallest mountain.

No man has ever gone down to the bottom of the very deep parts of the ocean to find out what things are like down there. Scientists, however, have sent down nets to gather up bits of the bottom, and instruments which tell the temperature and other facts about water several miles down.

It is possible to obtain a bucketful of water from near the bottom of the sea. Water has been brought up from depths far greater than Beebe's "iron ball" has gone down.

A bucket of this sort has a movable bottom and a movable top, both of which are open while the bucket is being let down. As soon as the upward journey starts, the top and the bottom of the bucket close tightly, and in that way the water sample is obtained.

At the surface of the Arctic Ocean, the water is at or near the freezing point of salt water. In the torrid zone the surface water is usually about 80 degrees above zero Fahrenheit. Sometimes the temperature of the water of the Red Sea rises to 100 degrees above zero!

In the Atlantic or the Pacific, the water is cooler the farther down we go. If it is 70 degrees at the surface, it will be 40 or 50 degrees at a depth of half a mile. At a depth of two miles, the temperature will be about 35 degrees.

HOROSCOPE

TUESDAY, March 7, 1939

Conflicting planetary aspects are active today, according to astrology. The morning may be a time of indecision and confusion.

Late hours today are auspicious for conferences and for public addresses. The spoken word will assume more importance in Canadian life as the radio adds amazing improvements to its broadcasting systems.

Inventors will profit this spring through the introduction of many of their latest mechanical devices. Airplanes will add many safety appliances.

Japan is to reap from the fields of death at this time when there may be unrest and discontent among many subjects of the Mikado. Crises in military affairs are presaged in China and Spain.

Foreign affairs will assume great importance. The policy of the United States in dealing with international problems will be strongly criticized by the public, which is not cognizant of underlying causes for diplomatic moves.

Persons whose birthdate is 1 have the augury of a year of prosperity and success. Women may be fortunate through inheritances.

Children born on this day may be dignified and reliable. These subjects of Pisces often are admirers of ceremony and display. They should be careful where accidents on the water are possible.

SIDE GLANCES

By George Clark

Dorothy Dix's Letter Box

DEAR DOROTHY DIX—Will you please tell us what the bright girls are to do? I am 23 years old, good looking and well dressed. Everybody except eligible young men seem to find me interesting and companionable. I am established in a profession in which there are few, other women, and while I enjoy my work I am not so dedicated to it that I want to bury myself in it. I want to be gay and dance, laugh and play and have dates like any other 23-year-old. Most of all, I want a man of my own, a husband and a home, and I see no prospect of getting any of these things. I meet a great many men, of course, in my profession, but they treat me as they would another man, and I have virtually no social life at all. I have tried playing dumb, but that doesn't work, for as soon as men find out who and what I am they drop me like a hot potato, and that's that. What am I to do? Isn't there any help for us poor little bright girls?

SORROWFUL SUE.

Answer: I don't know. There seems to be something atavistic in men's fear of brains in women. Unless they can be gradually cured of this and brought to believe that bright girls are non-poisonous and can not only be handled with perfect safety, but also make nice little household pets, the matrimonial prospects of the feminine intelligentsia look pretty bleak.

Just why men have this fear of clever women, especially if they are young, is hard to explain. It might be on the ground that masculine vanity demands that the man shall always be superior to the woman and hence they seek addle-pated little flappers who will look up to them and tell them how wise and wonderful they are instead of girls who are their mental equals or who rate even a higher I.Q.

But, anyway, that's how it is. And it is a fact that no matter how pretty she is, or how entertaining, or how well she dances, the young professional woman doesn't have as many dates, or as good a chance of marrying as little Miss Nitwit. However, she is not without hope, for many middle-aged men who have outgrown their boyish sense of superiority seek intelligence in the women they marry.

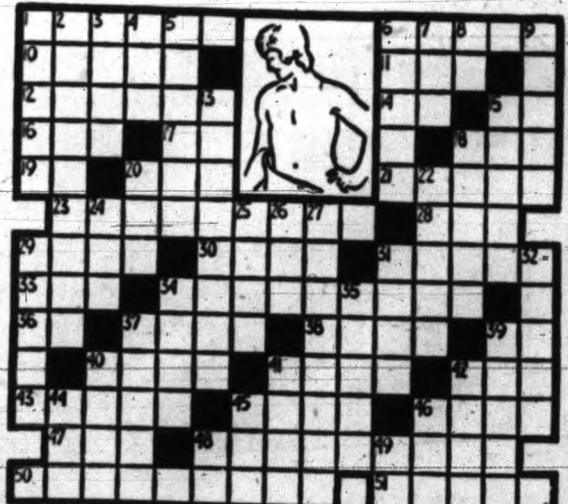

DEAR MISS DIX—Do you think 18 is too young for the average girl to marry?

FLAPPER.

Answer: I do. Very few girls of 18 are mature enough to know what real love is. They have pashes that they get over in a few weeks. They haven't judgment and experience enough to pick out a husband, and they are not ready to settle down to the work and responsibilities of marriage. It is a pity for any girl to marry before she has had her playtime of life.

DOROTHY DIX.

**NOVA STAR SPLITS
INTO 3 PARTS**

**Explosion May
Bring New World
Like Our Own**

WASHINGTON — Through telescopes in Java and in South African astronomers are now watching a giant stellar explosion which may be producing new worlds.

This exploding star, known as Nova Pictoris to astronomers, has been split up into three sections which are flying apart at speeds of over 1,000,000 miles an hour.

Calculations of the energies needed to bring about this stellar explosion were reported to the opening sessions of the American Physical Society here by Dr. Ross Gunn of the U.S. Naval Research Laboratory.

Through telescopes in the southern hemisphere Nova Pictoris looks like three tiny pin-points of light close together. The largest of the three parts has a mass 86 per cent of that of the sun and the two smaller parts have masses 34 and 30 per cent respectively of the sun's mass.

At last measurement the smaller parts were about three light years away from the larger part and moving rapidly to still greater distances. A light year is the distance light traveling at 186,000 miles a second will travel in a year. In distance a light year amounts to 6,580,000,000,000 miles.

The speed of recession of the small parts from the parent is about 540 kilometers a second or well over 1,000,000 miles an hour.

Such speeds, Dr. Gunn points out, are over 300 times the needed critical velocity to enable the receding parts to fly out from the gravitational field off into space. The two parts of Nova Pictoris, therefore, are on their way out into the depths of interstellar space and eventually will be lost from the larger part.

This situation is comparable to Dr. Gunn's hypothesis of the origin of our own solar system. He believes that in Nova Pictoris

WHERE 28 LOST THEIR LIVES—Here are vivid pictures of the worst disaster in Halifax since the explosion in 1917, the destruction of the Queen Hotel recently when fire swept through the historic structure. The top picture shows the fire at its height, sweeping through the building as firemen fought a losing battle. The lower picture shows a gripping rescue scene as a fireman brings down a couple trapped on the upper floor.

even now very small pieces may be thrown off from the original masses and become planets.

Dr. Gunn has suggested that the splitting of some large star created our sun, the planets and at least one additional, but now missing, star which originally was part of the sun's parent.

As the sun's original parent star split up, its two huge parts started whirling around one another and, at the same time, started to separate. Due to mutual gravitational forces the two parts created enormous tidal waves on each other. These waves tossed off what might be called "spray" that flew off into

space and eventually became the planets when the pieces cooled.

Nova Pictoris, Dr. Gunn states, has the luminosity of the usual nova type star. While it is far brighter than most common stars its brilliance is still far less than the so-called "super" nova stars.

Yet mere brightness of a nova star is not the sole criterion of the energy which is liberated in the explosion that called it into being, maintains Dr. Gunn. Nova Pictoris, in fact, furnished an excellent example of a star that liberated an enormous amount of energy and yet did not attain super brightness. The reason is that much of its liberated energy went into scattering its three great masses off into space. What was left over appeared as light.

The total energy to do all this, Dr. Gunn calculates, is just about the same order of magnitude as is the energy liberated by the so-called "super" nova stars.

All this means that the difference between a nova and a super nova star may well be only in the distribution of the liberated energy and not because some different catalysis occurred to create super nova stars. Dr. Gunn's report, in this respect, differs from the hypothesis of Drs. Fritz Zwicky and Walter Baade of California Institute of Technology and Mt. Wilson Observatory, who have suggested special kinds of stellar explosions to account for super nova stars.

Wins Lamme Medal

NEW YORK — The American Institute of Electrical Engineers' Lamme Medal for 1938 has been awarded to Marion A. Savage of the General Electric Company "for able and original work in the development and improvement of mechanical construction of large high-speed turbines." It was announced today. Mr. Savage, who has supervised the construction of many large turbines, will receive the award at the A.I.E.E.'s summer convention in San Francisco next June.

**B.C. Will Get
Fine Stallion**

**Lord Derby Will Donate
Horse for Benefit of
Thoroughbred Breeders**

VANCOUVER (CP)—A stallion from the famous English stables of Lord Derby whose horses have sired many turf greats, will be donated soon to the British Columbia Racing Breeders' Society for stud purposes in the province.

The society recently sought to purchase a stud animal from the stables of the wealthy English sportsman, whose father, Lord Stanley of Preston, was Governor-General of Canada from 1888 to 1893. Lord Derby answered as a gift to the society for the benefit of British Columbia thoroughbred breeders.

"I should be very glad to do anything for racing in a country where my father was governor-general for so many years," wrote Lord Derby whose horses last year headed both the breeders and owners' lists in Old Country racing.

Dr. Lyon Appleby, president of the B.C.R.B.S. who made the announcement here, said the society would arrange for ship-

ment of the horse and the necessary plans for its career here. The stallion, which Lord Derby is choosing personally, will probably be shipped at the end of the English racing season and arrive here next spring.

**Ontario Cricket
Team Coming West**

HAMILTON, Ont. (CP)—The Ontario Cricket Association decided at its annual meeting Saturday to send a representative team to the Dominion interprovincial tournament at Vancouver in July.

John DeGruchy of Toronto was re-elected president of the association.

The junior team to go to the coast, it is expected, will be chosen mainly from Ridley College, Upper Canada College, Trinity College School and St. Andrew's College.

The purple color of an amethyst is due to manganese.

**IN A
4200-FOOT
CHAIN****Canadian Nickel**

GIVES STRENGTH WITH LIGHT WEIGHT

A FISHERMAN reels in a fine, silvery trolling line. It is made of "Monel", an alloy of Nickel and Copper—tough, strong, rust-proof. Somewhere out in the Atlantic a chain 4200 feet long drags a 10½ ton plow which buries transatlantic cables in the ocean's floor. It was forged from steel containing 3½% Nickel—light in weight, but more than twice as strong as ordinary chains of the same size.

When alloyed with iron, steel or other metals, Nickel gives increased strength, toughness, hardness, and resistance to wear and cor-

rosion. So industry the world over makes use of Canadian Nickel. A locomotive in India, a coal cutter in a British mine, a truck in Africa and a dredge in Malay all operate with fewer breakages because of Canadian Nickel.

The sale of Nickel to peaceful industry brings money back to Canada. This money pays wages not only to those who work in the mines, smelters and refineries, but also to those Canadians who produce the food, cut the timber, manufacture the equipment and supplies, and man the railroads which feed Canada's Nickel industry.

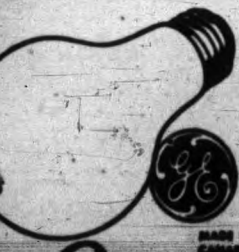

You are invited to write for a copy of "The Nickel Industry in 1938".
